Authorised Signatory

Name/Position

Diane Wardle / Technical Manager

### **Statement of Certification**

This is to certify that analysis has been carried out to determine the presence of asbestos fibres using Polarised Light Microscopy and Dispersion Staining Techniques. The method used is UKAS accredited and in accordance with MCP Environmental LLP in house current method MCP-AL-P001 Laboratory Procedure and the HSG 248 Asbestos: The analysts guide for sampling analysis and clearance procedures appendix 2, 'Asbestos in bulk materials: Sampling and identification by polarised light microscopy (PLM)

When the Test Certificate indicates sample(s) taken by the customer, the following disclaimers apply:

They are outside the scope of UKAS accreditation for Sampling for current in house method MCP-AS-P001 Asbestos Surveying Procedure. The customer provided the address and sample details information. MCP Environmental LLP cannot accept responsibility for the accuracy of the information provided by the customer or whether samples(s) taken were representative of the material sampled.
