London Weathered Yellow Paver

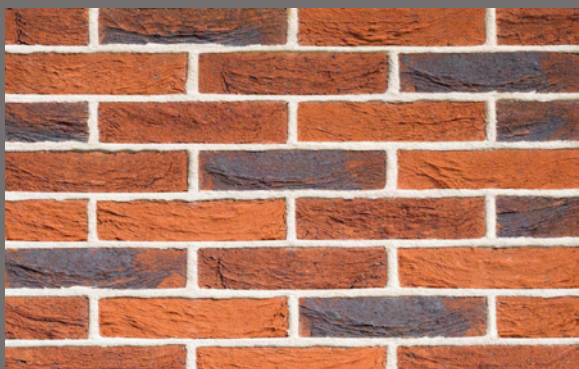

What ever you are building, let us help you choose the perfect brick from our wide range.

The Traditional Brick and Stone range of Clay Pavers are the perfect solution for your domestic landscaping project. Used in pathways or as edgings, the richness of colours available from warm terracotta to mellow pinks and weathered yellows, provides a dramatic backdrop to your garden design.

N70 Range

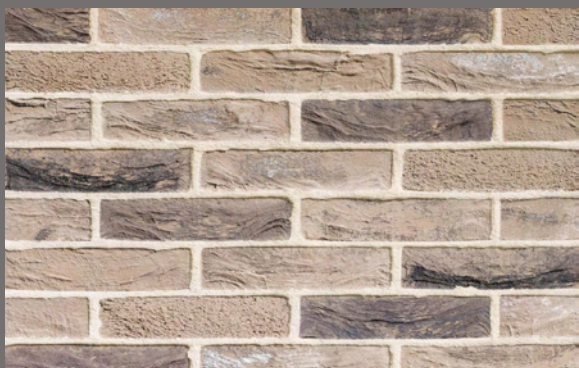

The Nelissen N70 Range provides a modern, sleek linear look to buildings whilst maintaining the warm aesthetic of clay stock bricks. Available in 2 size formats of 240 x 70 x 40 and 50mm, the N70 brick offers designers a wide range of options across the full spectrum of colours. The brick utilises 30% less gas during the production process compared to certain other products, making it a sound ecological choice.

For more information and to view the full range of N70 products please visit : www.nelissen.be/N70

Architectural Stone

TBS can make your designs a reality. We have the knowledge and experience to produce both standard and bespoke units to your requirements. We manufacture a complete range of stone, from drycast reconstituted, structural wetcast to Natural Limestone, all of which would enhance the appearance of your project.

Amongst our many capabilities, we provide a complete take off service supported by CAD drawings to confirm your designs. Site visits can be arranged to discuss your requirements in more detail. Should you require further information, or a catalogue, please contact the office or your local TBS representative.
