DECKING CLADDING RAILING FENCING

Thank you for taking the time to read our brochure. We hope you like the products we have to offer.

All our Ultrashield composite products come with a 25 year fade, stain, rot & split warranty for residential applications and are made using 95% recycled material.

Our product range includes **9 deck board colours** and **lengths up to 5.4m**. Deck railing, fencing and cladding is also available and matches a number of our deck board colours.

If you would like to receive **free** samples please visit www.newtechwood.uk and we will mail them to you as soon as possible. And if you have any questions or feedback please do not hesitate to contact us.

DECK FIXINGS

Product	Name	Pack Size	System	Pk Coverage* Naturale/PRO	Pk Coverage* Essentials
	TC2 Main Clip and screw	250	5mm Side Gap Secret Fix	15m2	13m2
	TC1 Locking Clip and screw	50	5mm Side Gap Secret Fix	15m2	13m2
	TC5/MG3 Starter Clip and screw	10	Used for both Secret Fix systems	Depends on shape of deck	Depends on shape of deck
	MG1 Main Clip and screw	250	1mm Side Gap Secret Fix	14m2	12m2
	MG2 Locking Clip and screw	50	1mm Side Gap Secret Fix	14m2	12m2
	Coloured Head Screws	100	Face-fix	-	-

*Pack coverage is given as a guide and based on average usage.
Coverage is calculated for residential applications. All screws work with timber and composite sub-frame.

“

We offer **2 secret fixing** options. Both are 3 clip systems.
Use the TC2, TC1 and TC5/MG3 for a 5mm side gap.
Or choose the MG1, MG2 and TC5/MG3 for a 1mm side gap.
TC2 or MG1 = Main clip. Used throughout the majority of your deck.
TC1 or MG2 = Locking clip. Use one per board to restrict longitudinal movement.
TC5/MG3 = Starter clip. Used for the first and last board.
Coloured screws are used for any face-fix boards such as fascia.

“ Our **Ultrashield Naturale Fencing** is a low maintenance system that comes with a 25 year fade, stain, rot and split warranty on the fence boards and a 15 year in-concrete warranty for the posts. The fence boards are reversible - meaning both sides of the fence have the same aesthetic. The fence posts and rails are an attractive dark grey and the fence boards match all 5 colours in our Naturale decking range.

DECKING TOP TIPS

“

We want you to enjoy your **Ultrashield** products for years to come. The installation process is an important part of that and here are our top tips to help you get the most from your **Decking** project.

1. Download installation instructions at www.newtechwood.uk
2. Install your deck with the correct joist centres - you can use any suitable material for your sub-frame. For example timber, composite, metal etc
3. Use sister joists at butt (end to end) joins and use the correct expansion gaps
4. Use a minimum joist size of 100mm to aid drainage and air flow
5. Install your deck with a minimum 1% fall (away from property) to allow drainage
6. If there is any masonry works on site please cover your deck beforehand
7. All boards are designed with subtle variation in colour & shade to mimic nature. We recommend laying / shuffling a number of boards before fixing them in to place
8. Sporadic cleaning should only require a soft brush with soap and water
9. If you are using a power-washer - please test the strength on an offcut first
10. If you have any questions please don't hesitate to contact us
11. Order free samples to choose the colour that you like the best - photos can be deceptive
