RAM BOARD® SEAM TAPE

Perfect solution for joining Ram Board seams. It's 3" width gives more of an allowance to cover Ram Board seams. The kraft backing makes it easy to tear off and install as well as making it recyclable. Because of its contractor grade adhesive, it should not be taped directly to finished floors and surfaces. Like most tape it is not vapor permeable and should be avoided in areas where curing floors need to breathe.

Durable and tough, yet low tack for easy release for up to 14 days.

RAM BOARD VAPOR-CURE® TAPE

Ram Board Vapor-Cure® Tape is engineered with exclusive Vapor-Cure® technology. When used to join Ram Board seams, it prevents cure lines and promotes even finishes in curing floors. This breathable tape allows vapours and moisture to escape from concrete, glue down floors, stained floors, epoxy floors, refinished floors, VCT, and most other floor types. When used with Ram Board, it provides the only complete Vapor-Cure® floor protection system on the market.
