# INDEPENDENT SLATE SUPPLIES

*Where quality comes naturally*

The Ascot Grey is quarried in one of the most prestigious slate producing areas in North West Spain. This beautiful Light/Mid Grey coloured slate benefits from being pyrite free.

The Ascot Grey comes in a 7-9 and 10mm thickness, making it ideal for Northern England and Scotland.

The slate boasts a flat textured face with heavily dressed edges in a characteristic light grey colour. Once on the roof the slate looks fantastic whilst protecting your home from the elements for a life time.

### Test results

The Ascot Grey slate boasts a W-1, T-1, S-1 rating, meaning it conforms and surpasses all the top UK tests for water absorption, thermal cycle resistance and sulphur dioxide exposure.

If further technical information is required ISS hold the declaration of performance (DOP) for the Ascot Grey which can be provided upon request.

### Ascot Grey Sizes Available:

500x250mm

400x250mm

400x200mm

350x200mm
