# ABOUT CMS TOOLS

**CMS TOOLS LIMITED WAS ESTABLISHED IN 1981 TO PROVIDE HIGH QUALITY, SPECIALIST ROOFING TOOLS AND ACCESSORIES AT AFFORDABLE PRICES.**

Our specialist technical team handpick tools and work with manufacturers to adapt and improve a wide range of products to meet the needs of roofers.

CMS Tools now works across the building trades and construction industry providing both tools and innovative new solutions, all fully compliant with relevant Health and Safety procedures.

## WHY BUY FROM CMS TOOLS?

- **Market leading, personal customer service.**
- **In stock for fast, 24 hour delivery times.**
- **Nationwide network of stockists.**
- **Sustainable products - wood based products delivered from re-planted and sustainable sources.**

## ORDER LINE:

# 01924 895999

**EMAIL:** [sales@cmstools.co.uk](mailto:sales@cmstools.co.uk)

**FAX:** 01924 896999

**Payment Home (UK)** Strictly nett monthly account.

**Payment Export** in sterling on shipment of goods.

**Minimum Order Value** £15 nett.

Customers exceeding these terms are charged at our bank base - rate plus 10%.

**Carriage: Delivery paid on orders in excess of £125 nett (except tile deliveries).**

Orders of less than £125, carriage will be charged as follows:

**Normal - £15**

**Next Day by 10.30am - £50**

**Saturday - Not Available**

For tile deliveries, if less than 35m<sup>2</sup> £50 carriage.

**Delivery** - Whilst we do our utmost to execute every order quickly, we cannot accept responsibility for any direct or indirect loss which may arise if the delivery is delayed as a result of strikes, lock-outs, non-delivery of materials by any other manufacturer, delays caused by carrier, non-payment of any outstanding accounts, or any other unforeseen circumstances.

**Damage/Loss** - We do not accept any responsibility for any damage or loss during transit unless the carriers or ourselves are notified in writing within 24 hours of receipt of invoice.

**Exports** - All prices are ex-works with packing cases chargeable at cost.

**Title** - Title to goods supplied only passes from the company on receipt of payment and all outstanding monies.

**Value Added Tax** - All prices are subject to VAT, added to invoices at the rate prevailing on the date of despatch.

**Consequential Loss** - CMS Tools Limited accept no consequential loss claims exceeding the nett value of the product supplied.

**Returns & Faulty Goods** - Goods will only be replaced FOC if they are faulty in manufacture - Only CMS Tools Ltd can determine whether goods are faulty or misused.

# PAVING SUPPORTS WITH FIXED HEIGHT

eterno|vica

Paver support with non-adjustable, fixed height.

## ADVANTAGES:

- Quick and cheap solution
- Three sizes (12mm, 15mm, 20mm)
- Can be placed on top or under the support
- LGH2 and LGH3 Levelling discs – available in 2mm and 3mm

# STAR.T PAVING SUPPORT

eterno|vica

The adjustable support allows for exact adjustments from 10-30mm.

Thanks to its reduced dimensions it is a great ally for renovations: Star.T is able to satisfy the lowest thicknesses thanks to the fixed part measuring just 10mm, and then become adjustable from 10mm to 30mm, by raising any type of ceramic floor, concrete or composite material of any size and weight.

The millimeter adjustment of Star.T allows you to obtain elegant and perfectly level pavings, thus shortening the installation times and conferring stability and precision to the entire pavement.

The Star.T extension is the only one adaptable to Star.T, you can reach the height of the adjustable supports NM1 and SEO; single height for a simple and versatile product: It is positioned under the Star.T increasing its height of 5mm and multiple with the possibility of stacking more extensions in case of need.

10 15  
STAR.T

NM Star T  
Top

NM Star T  
Base

NM Star B  
Extension

## ADVANTAGES:

- Adjustable to the shallowest depth of 10mm
- Adjustable heights from 10-30mm
- Easily removable tabs for easy fitting
- Varying depths for easy stacking (10mm + 5mm)
- Formed from high quality moulded plastic for strength

# 'SE' SELF-LEVELLING ADJUSTABLE WITH BI-MATERIAL HEAD

eterno|vica

An adjustable self-levelling paving support.

## ADVANTAGES:

- Integrated system that automatically accommodates roofing slopes to 5% variance
- Adjustable heights from 28 – 550mm
- Resistant to temperatures between -40 degree C to 120 degree C
- Smooth support base of 205mm diameter
- Easily removable tabs
- Anti-noise and anti-slip bi-material head
- Suitable for any self-supporting outdoor paving system
- Fully recyclable

# 'NM' FIXED HEAD ADJUSTABLE PAVING SUPPORT WITH BI-MATERIAL HEAD

eterno|vica

An adjustable system enabling floor height adjustment after fitting.

## ADVANTAGES:

- Precision adjustment from 25 to 935mm
- Possibility of adjusting the height once the floor has been finished, thanks to the exclusive adjustment key
- End with upper part in noise-reducing anti-slip rubber
- Smooth support base of 320cm<sup>2</sup>
- Resistant to weathering, acids, UV rays and wear and tear
- Resistant to temperatures between -40° to 120°C
- Fully recyclable
- Can be used in conjunction with any outdoor flooring
- Easily removable tabs

# UNIVERSAL EDGE CLIP

eterno|vica

## The perfect join: attractive and functional

The universal edge clip for stability around a perimeter wall. The stainless steel clip stabilizes the pavers whether situated on whole or part (cut) pedestals.

PSCLIP

£3.82

NMKEY

£90.00

## Adjustable support installation

## Fixed height support installation

For pavers or tiles that are larger than 500x500mm, it is recommended that an extra paving support (with flat head) should be placed in the centre of the tile.

### CONSUMPTION PER m<sup>2</sup>

Tile size	Supports per m <sup>2</sup>

30 x 35cm	9,5
30 x 40cm	8,3
40 x 40cm	6,25
45 x 45cm	5
50 x 50cm	4
60 x 60cm	2,8

# CLIP FOR VERTICAL CLOSURE

eterno|vica

## The sure new way of finishing in style

Our clip for vertical closure is designed to solve a problem typical of many external floors, i.e. how to fill in the gap around the edge when no perimeter wall is present. This solution represents an innovative, easy and elegant way to eliminate gaps around raised floors. The system consists of two special, stainless steel clips for positioning over the head and under the base of the Eterno Ivica support. It creates a firm seat capable of gripping the section of floor cut to size to fill the gap. The use of our floor edge clip effectively prevents horizontal movement in floor slabs.

### ADVANTAGES:

- One single clip that can be used for any slab thickness
- Wholly concealed clip, it doesn't interfere with the finish
- Wholly in stainless steel
- Elastic, to allow the slab natural expansion movement
- Wide wall support surface, to spread the slab pressure evenly
- Compatible with the whole PEDESTAL range

**PSCLIPUV £9.50**

GRANPEGG	FLEXIBLE RUBBER TILE - GREEN 500 x 500mm	£24.67 EACH

## SPECIFICATION

Granular rubber tiles designed for installation on roof terrace, balconys, patios and walkways, they are free draining and manufactured to exacting standards using top quality SBR granular rubber combined with polymer binders to provide an attractive anti slip protective surface.

## MAINTENANCE

All tiles should be cleaned on a regular basis. All tiles contain Carbon Black which may leach and rise to the tile surface.

Available in black, red and green

# ROOF DRAIN 'FIBREGLASS'

eterno|vica

Available in five diameters 50-75-82-90-100mm. The liquid vertical exit drain includes a fibreglass mesh for bonding, particularly with water based liquid waterproofing materials. The polypropylene flange is designed with a knurled surface on both sides to improve adhesion of liquid waterproofing materials. Small steps on the upper part of the spigot allows upper infiltration water to be captured and drip away.

# ROOF DRAIN ‘TPE’

eterno|vica

## TPE

Manufactured of a special compound of thermoplastic rubber, it is highly resistant against low temperatures (cold flexibility = -40°C) as well as perfectly compatible with all sorts of bituminous waterproofing membrane.

‘GENIUS’ is the only roof drain in the world with a special circular row of holes and through these holes the waterproofing membrane torched over its flange is totally blended with the membrane below. The spigot is provided with two or three couples of anti-infiltration rings that prevent any infiltration. The product is PATENTED.

eterno|vica

## TPE FLAT

The new TPE roof outlets with smooth flange have been properly developed as the ideal solution for the adhesion of synthetic EPDM, butyl rubber and similar waterproofing membranes. Since no chemical welding is possible, the smooth flange offers an ideal laying support for glues or self-adhesive bands. The spigot is provided with anti-infiltration rings to prevent infiltration in case of water back-up.

## MULTI-FUEL BIRDCUARD AND RAINCAP

Multi-fuel birdguard prevents birds, vermin and leaves entering the chimney. This product provides good ventilation and gives protection against wind and rain.

### Key Features

Available with bolt or strap fixings  
Fits flue sizes 125-250mm internal diameter

Product Code	Product Description	Sale Price
CO1	MULTI-FUEL BIRDCUARD AND RAINCAP	£49.40

## SPRUNG BIRD GUARD

Sits in the top of the chimney and, once placed, the arms flare out, gripping the inside wall of the pot. This stops large debris and birds getting in. Simple to fit, a long lasting solution.

### Key Features

Fits flue sizes 155-225mm internal diameter – spring fit

Product Code	Product Description	Sale Price
CO2	SPRUNG BIRD GUARD	£33.20

## SPIN COWL

Spin Cowl is a revolving cowl, designed to eradicate downdraught whilst the rotating action assists ventilation.

### Key Features

Fully assembled – ready to fit  
Fits pots from 125-250mm diameter  
Tested to BS715:1993 and against BSEN 1856  
Suitable for flue temperatures up to 200°C  
Solves problems of downdraught whilst the rotating action increases ventilation

Product Code	Product Description	Sale Price
CO3	SPIN COWL	£199.40

## FIXED COWL

A static anti-downdraught cowl. Tested to BS715:1993 and against BSEN 1856 pt2 and hence suitable for all fuel types including gas.

### Key Features

Fully assembled – ready to fit – with birdguard  
Fits flue sizes 125-250mm internal diameter  
Suitable for flue temperatures up to 200°C  
Manufactured from 1.6mm test house approved aluminium  
Available with stainless steel bolt or strap fixings

## OXY TURBO GAS WELDING KIT

The Oxy Turbo 90 Kit is the smallest autogenous welding system available.

It is compact, powerful and allows the end-user to make professional welding being particularly suitable for small roofing works.

The product safety is guaranteed by four flashback arrestors with double protection: one on the pressure reducer, one on the gas tap and two integrated in the handgrip.

Supplied with disposable Gas & Oxygen bottles (spares available separately) and accessories in an elegant space-saving metal trolley.

Compact and highly effective, the weight of the kit is minimal at 5kgs. A practical handle and two blocking devices for bottles make it possible to carry the set everywhere.

### Includes

- Valved welding torch with standard nozzle
- Hoses with check valves
- Oxygen and turbo gas regulators
- Stella nozzle set
- Carry frame
- 2 brazing rods
- Goggles
- Spark lighter

## ROOF DRAIN 'FIBREGLASS'

eterno|vica

Available in five diameters: 50-75-82-90-100mm. The Liquid vertical exit drain with fibreglass mesh is provided of certified fibreglass mesh, that allows compatibility especially with water base liquid waterproofing materials. The PP flange is provided of knurled surface on both sides, to improve the adherence of liquid waterproofing materials. Small steps on the upper part of the spigot allow dripping of water coming from any upper infiltration.

**LEISTER**

## LEISTER TRIAC 'AT' HOT AIR GUN

The TRIAC AT is an intelligent hot-air hand tool for welding and shrinking plastics that is suitable for on-site use. It is designed for the needs of even the most demanding professional. Every tool undergoes stringent quality checks prior to leaving the factory in Switzerland. This high-quality hot-air hand tool is equipped for all situations. Its universal areas of application are virtually unlimited. The TRIAC AT will continue to prove its merit in any weather condition and is just as effective outside as it is indoors – all during continuous operation.

### Key Features

- Suitable for the work site.
- Closed loop controlled temperature.
- Open loop controlled air volume.
- Intelligent «e-Drive» operating unit.
- Ergonomic handling.
- Modern design.
- Swiss made.

Product Code	Product Description	Sale Price
TRIAC 'S'	LEISTER TRIAC 'AT' HOT AIR GUN	£787.50

## STEINEL HG 2620 E HOT AIR GUN 110V

Suitable for use on construction sites, the Steinel HG 2620 E hot air tool not only ensures top performance and precision, but also, greater protection from dust and moisture, sturdier design and a better insulated power cord to H07. The ceramic heaters' temperature can be varied over a range of 50-700°C in 10°C steps by joystick. The Airflow rate is also continuously adjustable from 150-500 l/min. Without the power cord, the HG 2620 weighs in at just 840g, making it both light and easy to handle.

### Key Features

- LCD display.
- 1650-watt brushless motor.
- Improved running time of 10,000 hours.
- Variable temperature adjustment in 10°C steps by joystick.
- Ergonomic handle with soft inlay and magnesium guard sleeve for working both safely and comfortably.
- The integrated fine dust filter protects internal component in dusty environments.
- The outlet nozzle is suitable for fitting screw-on professional nozzles.
- The power cord can be easily changed.
- LOC function can be used to lock all settings on the tool.
- Integrated thermal cut-out prevents overheating.

**GRÜN**

## GRÜN BITUMEN BOILER WITH TAP & INSULATION

**WE ALSO MAKE A  
FULL RANGE OF  
ASPHALT EQUIPMENT  
PLEASE CALL  
01924 895999**

Propane bitumen boilers are the product of years of experience in the manufacture of bitumen boilers. The construction and fitting of the equipment represents the latest technology; the robust design takes into consideration the rigours of building sites; the heating system – without internal heating tubes – guarantees, because of the large heating areas, a high melting capacity using only small amounts of gas.

Economic viability is achieved both by a high degree of firing efficiency and by double casing insulation. Both the energy-saving heating technique and the cleanliness of combustion have been confirmed by a State approved testing institution in W. Germany.

GRÜN bitumen boilers are designed on the basis of a modular construction system and can easily be reduced to the main component parts without any tools, as a result of which exchanges of parts within boilers of the same size can be made without any problems, this often solves transportation difficulties.

The construction is rigid and wholly suitable for building site use, the steelplate is strong and of excellent quality thus extending the life of the equipment – a wind-shielded vortex beam and row burners ensure a uniform spread of heat on to the boiler base.

The standard model includes hand-operated burners. The absence of heating tubes prevents cleaning problems.

Equipment of 30 litres capacity or above can be fitted with a dial thermometer if required; equipment with more than 50 litres effective contents can be designed, on request, for thermostatic regulation of the burner by an automatic control, the design of which is based on tried and tested component parts. The control is effected via an adjustable valve which regulates the gas discharge rate.

Product Code	Product Description	Sale Price
GRU30	30 GALLON	£2045.23
GRU50	50 GALLON	£2305.00

## GRÜN THERMOST CONTROL UNIT (ONLY 30/50 GALLON)

Automatic thermostatic control that is durable and does not require batteries or mains supply.

Product Code	Product Description	Sale Price
GRUTHE	THERMOST CONTROL UNIT	£1387.50

## GRÜN BURNER ONLY

Burner only for use with a GRÜN boiler.

Product Code	Product Description	Sale Price

## ROOFER RIDGE BUCKET

Designed for roofers, this hard-wearing and durable ridge bucket comes with a host of convenient features. The rigid 'V' shaped base to the bucket allows the bucket to sit on the roof ridge without risk of spillage. The heavy duty plastic and metal handle ensures that fully laden buckets are comfortably and safely transported around the roof without accident. A strong hook moulded into the rim of the bucket allows the user to hook the ridge bucket over batten and ladder rungs.
