eco style

freestanding bathroom furniture

Style by eco bathrooms allows you to create your perfect bathroom when space is at a premium yet with no compromise on choice, character or quality.

Offering clean lines and understated simplicity, a style bathroom or en-suite allows you to enjoy clear counter tops and clutter free surfaces, turning your bathroom into a sanctuary.

The selection of finishes and accessories means you can find the perfect look to match your design.

The British-made Style by eco bathrooms is available in 22 door options and with a variety of handles, and comes with a five year furniture manufacture guarantee.

style kashmir

Style offers no shortage of design colour options. Shown here in Kashmir. A taupe Grey, that coordinates with many other colours Basin units are available wall mounted (as shown) or floor standing. Door or drawer options.

style

metro denim

- Presented as a modern cloakroom, floor mounted basin unit.
- This combination features a ceramic basin
- with gentle internal lines, a single tap
- hole to accommodate a monoblock basin mixer.
- Basin unit is available 500mm or 600mm wide.
- style WC Unit is available 500mm wide only, complete with co-ordinating worktop as standard.

Style Mid egde ceramic basin.

style

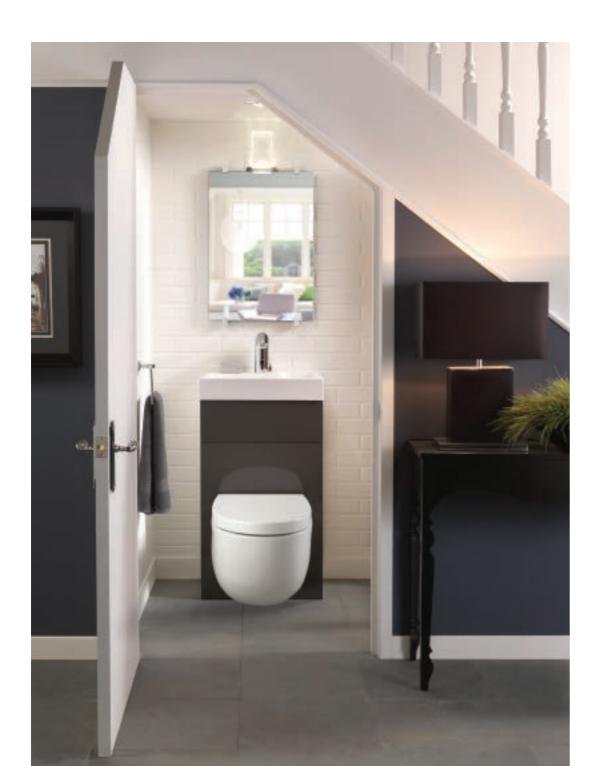

combi

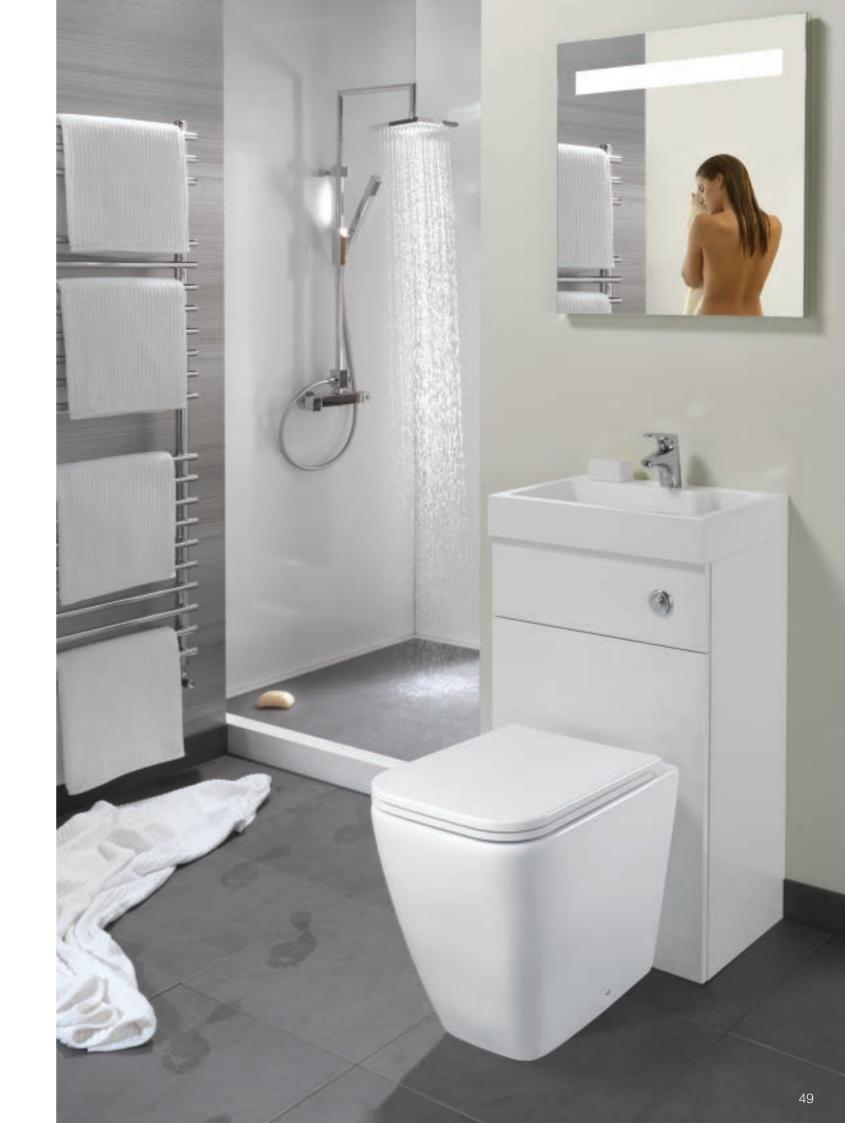

unit

The combi unit answers the need for both Pan & Basin in one unit to create the W.C. solution in the smallest of spaces with all pipework enclosed.

The internal dimensions of the WC Cabinet allow for cistern fittings and a macerator such as a Saniflo, if required.

Registered Design 4016148

style combi space saver

The dimensions shown are the minimum sizes taken up by the Combi Unit & pan.

Services contained within the unit & ease of installation are also fundamental to the design, and lack of visible pipework which adds to the visual appeal were all considerations in creating a solution to the smallest of spaces.

Registered Design 4016148

COMBI SPACE SAVER. A UNIQUE SOLUTION TO THE SMALLEST ROOM, CLOAKROOM, UNDERSTAIRS. EASY INSTALLATION. MULTIPLE FASCIA, TAP & PAN OPTIONS

style

How to Order

Space represents a carefully selected range of fitted bathroom furniture units, enabling the smallest of rooms to provide much needed storage space for everyday requirements. Doors and price groups are detailed on page 2.

Style is equally at home in a cloakroom, en-suite or bathroom. Uncomplicated and designed to be used as individual pieces.

Doors and price groups are detailed on page 42.

Design takes its inspiration from the warm climes of Mediterranean Europe. Wall hung basin and storage units create a minimalist contemporary design, that will stand the tests of time.

Doors and price groups are detailed on page 62.

Select the door style and colour of your choice. Space may be installed with legs & plinth, or wall hung, without. Worktops, handles, basins, WC's, mirrors, lighting and taps all need to be specified at the point of order.

Handings of single doored units will also need confirmation.

If installing a wall hung WC within Eco Bathroom WC cabinet we strongly recommend a WC wallhung compact frame is used.

This fits within our furniture and has floor & wall anchoring points.

Eco Bathroom Furniture is proudly manufactured to order within the UK. Please ensure your order requirements are accurate, as wrongly specified units cannot be returned or exchanged after supply.

Prices are inclusive of VAT at 20%.

Specification

Eco Bathroom Furniture was designed around three fundamental principles. Making best space of the room available. Using fittings and components high in specification.

Making it easy to install. These principles are as true today, as they were when the product design, was conceived.

Cabinets are produced from 18mm MFC. Construction is glue and dowel avoiding unsightly exposed metal cams. Doors are supplied fitted to the units.

Within Space we select 6mm frosted safety glass shelves, with locking chrome adjustable brackets - ensuring the furniture looks at home, within the bathroom environment.

Doors close softly, due to hinges that have soft close mechanisms, integral to the hinge. Soft close can be turned off on one hinge to accelerate the closing action, if required. Alternatively, space may be specified with "touch to open" and no handles (doored units only).

Design wall hung basin units feature four fixing points that assist with alignment and secure the unit for peace of mind. Concealed Cisterns are supplied by Thomas Dudley. Market leader in water technology.

Eco Bathroom Furniture is functional whilst offering exceptional value for money, without compromise.

Cabinets, handles, panels, worktops, basins & taps all you need to create the bathroom of your dreams.

eco space

fitted bathroom furniture

eco space - offer.

eco space bathroom product and price guide provides the details on colour-ways & unit options.

Links between modular and fitted are available in some colours extending the design options.

So Why Space.

Simplicity in design is often more difficult to achieve and the devil is very much in the detail of balance and visual stimuli.

Sight lines and colour co-ordination, shape and form used to create a visual feast where even the shadows contribute.

creating a visual treat.

space furniture features

General cleaning of the surface requires only a damp cloth, mild detergent or non abrasive cleaner diluted in warm water. Abrasive scouring powders, creams and even polishes should all be avoided. Potentially persistent stains should be removed immediately. Buff the surface after cleaning with a soft cloth. A gloss surface will show scratching and damage more easily than a standard surface. Remove standing water immediately.

eco style

freestanding bathroom furniture

eco style - offer.

eco style bathroom product and price guide provides the details on colour-ways & unit options.

options.

So Why Style.

Simplicity in design is often more difficult to achieve and the devil is very much in the detail of balance and visual stimuli.

Sight lines and colour co-ordination, shape and form used to create a visual feast where even the shadows contribute.

The chosen items should all be functional and maximise on available storage whilst creating a visual treat.

eco style furniture features

- designed components.
- on externally colour co-ordinated cabinets.
- placement are carefully thought out.
- Handles chosen to enhance the visual feast and your style.
- incorporating non slip drip mats.
- cabinets.
- Again accessories are very particular to the range content.
- standards and meet our ethical code.

Links between modular and fitted are available in some colours extending the design

• eco's consistent quality of construction enhanced through the use of purpose

• 6 furniture designs in 13 colourways, from high gloss to heavy tactile textures

• Carefully designed units with a variety of options whose proportions and

• Matching or contrasting worktops extending your individuality.

Basin drawers designed and crafted to maximise on available space,

• Basin designs are very specifically commissioned to match perfectly with the

• High specification materials from suppliers who meet the highest European

Choose a door colour and style from our range of 22 options. (All cabinets will co-ordinate with your choice of door colour).

Jackson Pine

General cleaning of the surface requires only a damp cloth, mild detergent or non abrasive cleaner diluted in warm water. Abrasive scouring powders, creams and even polishes should all be avoided. Potentially persistent stains should be removed immediately. Buff the surface after cleaning with a soft cloth. A gloss surface will show scratching and damage more easily than a standard surface.

Electrical Zone

Bathroom lighting

Electricity and water are a dangerous combination so when choosing bathroom lights, it is essential you are aware of IP Rating and Bathroom Zones. You need to ensure that the fittings you choose have the relevant IP rating for the Zone in which it is to be used.

IP Ratings

IP (or "Ingress Protection") ratings are defined in international standard EN 60529 (British BS EN 60529:1992, European IEC 60509:1989). They are used to define levels of sealing effectiveness of electrical enclosures against intrusion from foreign bodies (tools, dirt etc) and moisture.

What do the numbers in an IP Rating mean?

The numbers that follow IP each have a specific meaning. The first indicates the degree of protection (of people) from moving parts, as well as the protection of enclosed equipment from foreign bodies. The second defines the protection level that the enclosure enjoys from various forms of moisture (drips, sprays, submersion etc).

First Digit (intrusion protection)

1: No special protection

2: Protection from a large part of the body such as a hand (but no protection from deliberate access); from solid objects greater than 50mm in diameter.

3: Protection against fingers or other object not greater than 80mm in length and 12mm in diameter.

4: Protection from entry by tools, wires etc, with a diameter of 2.5 mm or more.

5: Protection against solid bodies larger than 1mm (e.g. fine tools/small etc).

- 6: Protected against dust that may harm equipment.
- 7: Totally dust tight.

Second Digit (moisture protection)

- 1: No protection.
- 2: Protection against condensation
- 3: Protection against water droplets deflected up to 15° from vertical
- 4: Protected against spray up to 60° from vertical.
- 5: Protected against water spray from all directions.
- 6: Protection against low pressure water jets (all directions)
- 7: Protection against strong water jets and waves.
- 8: Protected against temporary immersion.
- 9: Protected against prolonged effects of immersion under pressure.

Bathroom Zones

Bathroom Zones

Zone 0 Inside the bath or shower. Any fittings used here must be SELV (Separated Extra Low Voltage – max. 12Volts) and have a minimum rating of IP67.

Zone 1 Above the bath or shower to a height of 2.25m. A minimum rating of IP44 is required. In this zone, if there is likelihood of water jets being used for cleaning purposes, a minimum of IP67 is required. Also, subject to IP rating, SELV or 240V luminaires may be used in this zone; if the fitting is 240 volts, a 30mA residual current device (RCD) must also be used to protect the circuit in this zone.

Zone 2 The area stretching to 0.6m outside the bath or shower and above the bath or shower if over 2.25m. An IP rating of at least IP44 is required. In this zone, if there is likelihood of water jets being used for cleaning purposes, a minimum of IP67 is required. Also, subject to IP rating, SELV or 240V luminaires may be used in this zone. In addition, it is good practice to consider the area around a wash basin (within a 60cm radius of any tap) as Zone 2.

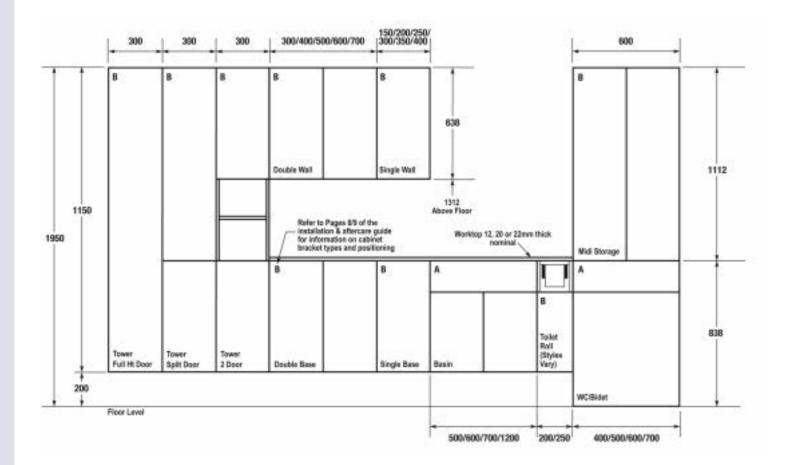

Outside Zones Anywhere outside zones 0, 1, and 2. Where water jets are not to be used for cleaning purposes, the general rules of BS7671 apply. Here, there is no requirement for any lighting solutions to be protected.

This information should be used for guidance only. Always refer to the current IEE Wiring Regulations or a qualified electrician to ensure that you are guided by the latest codes of practice. Installation of electrical lighting must be made in accordance with the current IEE wiring regulations and relevant building regulations. We recommend that all electrical bathroom products should only be fitted by a suitably qualified electrician.

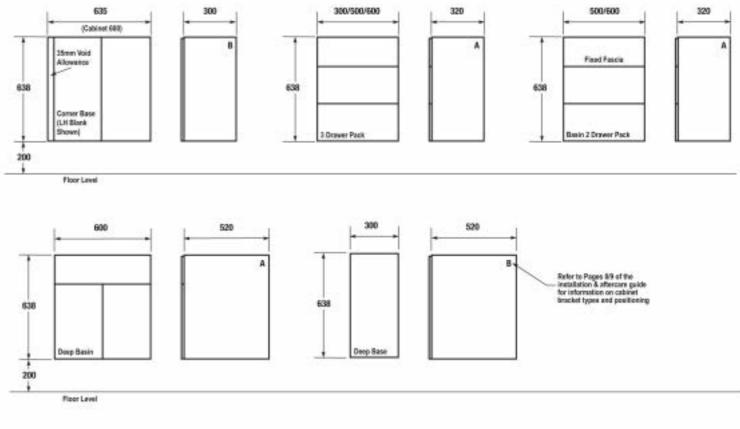

Unit Size Options

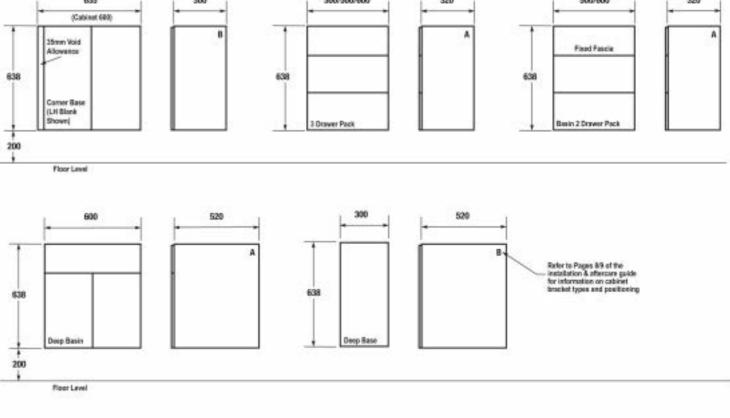

Space cabinets available in both Slimline and Standard depths. Slimline cabinet 202mm deep (excluding fascia). Standard cabinet 320mm deep (excluding fascia).

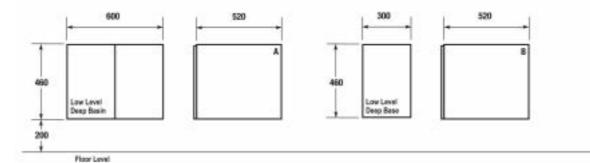

Space cabinets available in sizes specified below. Depths are excluding fascia

NOTES

141

Eco Bathroom Cisterns

Dio. 51mm dual flush chrome plated button, offering a smooth pneumatic operation.

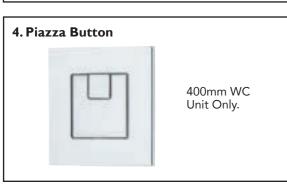

Sensor. 40mm dual flush infrared sensor. Battery operated. Offering touch free hygienic operation by the wave of a hand.

3. Palm Push

Palm Push. 51mm twin buttons, allowing for easy less abled operation.

Concealed cisterns used within Eco Bathrooms are manufactured in the UK by Thomas Dudley, whom are market leader within water technology.

Cisterns are supplied factory assembled, with top and front access panels and easy fit, push fit plumbing fittings.

Cisterns are factory set to 6ltr |4ltr flush, however they can be quickly converted to 5ltr|3ltr or 4ltr | 2.6ltr flush settings to offer further water saving opportunities.

When purchasing both cabinet and concealed cistern fittings from Eco Bathrooms, we will prepare the cabinet in advance of installation, to accept Thomas Dudley Vantage cistern.

This includes drilling and sealing the top fascia to accept the control button(s). The Vantage cistern features a polystyrene insulation

jacket, (exception 400mm width) which reduces noise and condensation, offering protection to your furniture and floor.

Delay fill hydroflo inlet valve ensures the cistern only starts to refill the cistern, once flushing is complete. Eco Bathrooms offer three flush control options

1. Dio. 51mm dual flush chrome plated button, offering a smooth pneumatic operation.

2. Sensor. 40mm dual flush infrared sensor. Battery operated. Offering touch free hygienic operation by the wave of a hand.

3. Palm Push. 51mm twin buttons, allowing for easy less abled operation.

See Price Guide for Furniture & Concealed Cistern Options and prices.

We strongly recommend Thomas Dudley Vantage concealed cisterns for use within Eco Bathroom Furniture.

It is easy to fit, quiet in operation, protects against condensation and offer three control options. Crucially it is reliable and safe, holding WRAS accreditation and approved by the European water label scheme.

Please register your warranty within fourteen days of purchase with Thomas Dudley to activate the three year warranty.

INSTALLATION & AFTER CARE GUIDE

Every Eco Bathroom cabinet order will come with its own personalised installation & After Care Guide which also contains your Guarantee Registration Form.

Within this guide your installer will find advice to assist with a perfect installation, including -

- Recommended heights for hanging brackets.

- How to adjust and secure the hanging brackets.

- How to adjust hinges and drawers.

to ensure that your bathroom maintains its looks throughout its lifespan.

Finally, once your bathroom is installed remember to activate your guarantee by completing and returning the form at the back of the guide.

Not suitable for Wet Rooms.

British Made Since 868

Guarantee. Domestic use only.

It is essential that products have been installed to the instruction guidelines, and maintained in accordance the care requirements.

Installation.

The guidelines should be followed, all edges should be fully sealed taking special care with work surface joints and edges, around basins and especially bath panels. Hung units must be secured using adequate fixings, the working load of the internal hanging brackets are shown in the instructions.

Maintenance & After care
