World leading technology...

OX has redefined excellence in the world of circular saw blades with the introduction of it's new superfast range.

These revolutionary saw blades have a stronger tooth bond that provides up to 50% longer life. The carbide teeth are made from a tougher than standard carbide that stays sharp longer and are sharpened to finer more durable cutting edges that produce a faster and straighter cut.

Blade cores are made from the highest quality steel, precision engineered, ground and hardened.

Blade selection & presentation

Wood – speed cut/coarse finish

For ripping through softwood, hardwood & plywood.

Wood – cross cut/medium finish
