WE ARE MORE THAN

Bathrooms.

We place family values and our people are at the heart of everything we do; our unique history deeply rooted and intertwined with the traditions and history of the Gargour family.

The legacy continues to inspire and guide us in every aspect of our business, from product design to customer service.

We take pride in our achievements and we are committed to providing tailored solutions and flexibility to those we work with.

Our global presence is ever-growing, exporting to over 50 countries worldwide.

As the second largest supplier into the UK by volume, we have the capacity to produce 6.2 million pieces each year, every piece meticulously hand finished.

We are Lecico

We can & we will.

"We have a term that we often refer to internally to test our resolve to provide the best possible customer service levels - we can and we will."

Antony Thompson
Lecico Managing Director

IT ALL STARTED WITH ORANGES

The first Mercedes shipped to the east was traded by TGF, 5000 cases of them were exchanged for the Mercedes.

In 1928, the Gargour family founded T. Gargour & Fils (TGF). By 1959, a new chapter in the Gargour family's journey had begun; the start of Lecico, a budding tile-making firm. In 1967, Lecico diversified into the production of sanitary products. Their close friend Joseph Gorra, urged them to invest in the business after their move to Lebanon. By 1977, Lecico had grown exponentially, but the Gargour family were far from done and set their sights on a new market - Egypt. The company flourished in Egypt and soon started reaching new heights of success. TGF is still run today by the Gargour family alongside Lecico and remains the sole distributor of the iconic Mercedes Benz in Lebanon and Jordan.

WHERE FORM MEETS

Function

In the interplay between form and functionality, our range of trade and professional bathroom products are a testament to design excellence and practicality. Our products stand as timeless examples of enduring style, creating a lasting connection with contemporary living.

OUR COMMITMENT TO

Balanced printing

At Lecico Bathrooms we are committed to sustainable sourcing and production, this includes minimising the carbon impact of our brochure production.

Our partnership with Deltor benefits from their ISO14001 Environmental Management, ISO9001 Quality Management Certification and FSC® Chain of Custody Certified printing plant where more than 14000 sq. ft of solar panels are utilised for power generation, our brochures are produced from sustainably sourced energy.

Deltor are one of the greenest printers in the UK, actively seeking ways to reduce the effect they have on the environment by monitoring processes and the materials they use.

In addition, any remaining emissions from the production process are calculated and then offset with the World Land Trust (WLT).

The printing plant has balanced the equivalent of 140 tonnes of CO₂ - This directly helps WLT protect over 24 acres of threatened forest and habitat.

World Land Trust is an international conservation charity that protects the world's most biologically significant and threatened habitats, acre by acre.

Since its foundation in 1989, World Land Trust has funded partner organisations around the world to create reserves and give permanent protection to habitats and wildlife.

To date, World Land Trust has helped secure more than 881,000 acres of threatened habitat in 20 countries. The work of World Land Trust is actively supported by their passionate and dedicated patrons.

"The money that is given to the World Land Trust, in my estimation, has more effect on the wild world than almost anything I can think of."

Sir David Attenborough, WLT Patron

Non Concussive Taps

Turn off after a set period of time allowing for smarter water usage in high traffic areas

Propelair WCs

Flush on only 1.5 litres making significant savings on utility bills

A UNIQUE AND

Limited resource

At Lecico we know that water is a unique and limited resource. We're committed to reducing the amount of water used in the operation of our WCs; most come with a dual flush mechanism as standard.

In addition we are now able to offer an increasing number of products within our ranges which only require 4/2.6 litres of water for flushing. This represents a significant saving on utility bills.

Other current developments include the addition of delayed fill inlet valves for our range of WCs and our exclusive distribution partnership with Propelair.

As a manufacturer of bathroom ceramics we are aiding governments in their quest to reduce water consumption by producing new, exciting, innovative and technologically advanced bathroom products.

We've also pledged our commitment to the Unified Water Label scheme. The scheme provides easy access to a comparative database of bathroom products, which when installed and used correctly will use less water, save energy and save money.

Throughout the brochure you will find the UWLA efficiency ratings where applicable.

You can use the Unified Water Label as a guide to find a toilet that will save you money.

Visit their website to find out more www.uwla.eu

INTRODUCING THE

Atlas Collection

Atlas is one of the UK's most trusted and respected brands of bathroom products. Our product solutions are functional, reliable and offer great value for money.

Atlas Trade pick-up packs are available for a wide range of our products and are perfect for trade counter environments. Look out for the Atlas Trade icon which indicates a boxed product pack.

Atlas specialises in products for affordable and luxury residential houses, apartments & commercial buildings including schools, leisure facilities, hotels and offices.

Lecico Bathrooms is one of the world's largest manufacturers of sanitaryware, number two supplier into the UK market, and export to over 50 countries worldwide.

Lecico Bathrooms manufacture a range of internationally certified sanitaryware products sold both under Atlas Trade, Atlas Pro and Design Series brands. All Lecico Products are UKCA and WRAS approved where appropriate and are listed on the UK water label scheme.

Lecico Bathrooms is only one of a limited number of sanitaryware manufacturers with products listed on the NBS platform.

Back-to-Wall

Back-to-wall WCs are a stylish choice using concealed cisterns or in-wall frames. We also manufacture rimless options for installations focusing on hygiene.

Wall Hung

With projections as low as 516mm and features such as rimless technology, our wall hung pans are a perfect option for small bathrooms and cubicles.

High & Low Level WCs

Our pans are suited to both high and low level cisterns. Available in traditional styling or commercially designed, such as our specialist pans including schools, p-trap and s-trap.

WCs

Our range of toilets comprise of a wide array of options to suit all types of requirements.

From stylish square sets to easy-clean school pans. New advancements have enabled us to develop products with cutting edge features such as our new ultra hygienic rimless technology.

Close Coupled

Close coupled with either lever or push button flush

EXCLUSIVE TO LECICO BATHROOMS

THE FIRST AND ONLY

Leak Free, Syphon Technology Low Flush WC

The Problems

Leaking toilets waste between 215 and 400 litres of clean drinking water on average every day.

Between 5 and 8% of toilets in the UK are leaking, mostly dual flush toilets.

A principle cause of a leaking toilet is a faulty button operated flush valve.

Syphons cannot leak when they fail, however syphons traditionally use lever control which is seen as outdated.

The Solutions

A syphon operated cistern actuated with a push button.

A product that has no joint beneath the waterline.

A product that lifts water up.

A leak free, low flush syphon operated WC using a push button.

QUANTUM TECHNOLOGY WCS

Powered by Quantum® Technology from Thomas Dudley

Quantum Technology Overview

- Superior flow rate of 2.2L/sec (compared to standard syphons)
- 10,000 hours of product development with leading Fluid Dynamics (CFD) experts
- The only product to use self-recharging air lock technology
- No dynamic joints beneath the water, syphonic in nature
- No assisted power source required
- Manual activation; mechanically operated
- User friendly flush button - 25mm button travel
- Choice of three button caps:
 1. Flush design,
 2. 5mm Protruding design,
 3. Palm push button
- Single flush sub 4L
- BS EN 997 compatible with specified WC pans

CHOOSING THE RIGHT

Schools toilet

There are two main factors that will help find the perfect WC for your next installation.

The height of the rim, which will correlate to the age of the intended users and the style. Lecico offer close coupled, back to wall and low level WCs in three sizes for the education sector and wall hung pans in a single size, that can be mounted at different heights to suite different users.

CHOOSE FROM THREE HEIGHTS....

Standard Height 395mm

Suitable for 9 years and upward
(see main WCs section for Standard Height WCs)

Junior Height 350mm

Suitable for 5 years to 11 years

Infant Height 300mm

Suitable for 3 years to 6 years

....AND THREE INSTALLATION STYLES

Back-to-Wall

Back-to-wall pans are popular due to the reduced footprint and the ease of which they can be cleaned. Install with a concealed cistern (either lever or push button).

Close Coupled

A classic design with a ceramic cistern and lever flush.

Low Level

A traditional style low level pan with a ceramic cistern, perfect for commercial installations and replacements.

Basins

Our range of basins encompasses all you need from high end under counter basins to commercial cleaners sinks.

Many of our basins come in multiple variations you can be sure to find the right solution.

Standard Basins and Pedestals

Our standard basins range in size from 35cm to 60cm. Designed to be either wall mounted or paired with a full or semi pedestal. A versatile option for domestic and light commercial alike.

Corner Basins

Corner basins are ideally suited for cloakrooms and smaller bathrooms where space is at a premium.

BS Basins

Named after their imperial measurements, our British Standard basins come in sizes 36cm to 59cm. An ideal choice for commercial solutions.

Vanity Basins

Designed for use with solid or composite, natural or man-made worktops. Ideal for contemporary bathrooms or commercial settings.

Under Counter Basins

Perfect for any washroom. These basins are suitable for both countertop and furniture mounting.

Assisted Living

Lecico are at the forefront of specialist commercial sanitaryware

The Doc M packs we produce are reliable and accessible to the fullest extent. We pride ourselves in offering a large array of Doc M, peninsular and ambulant packs.

Taps

The configuration of the taps in Doc M packs are to the left or the right, always closest to the position of the WC for ease of use. Doc M packs for use in public areas also include a TMV3 thermostatic tap to control water temperature and prevent scolding. These taps are lever sequentially operated lever taps for ease of use.

Document M of the Building Regulations (2004) and BS 8300-2009 provide government guidance on the layouts of an accessible wash-room in non-domestic settings. It ensures consistent levels of installation and function designed for all users. UKCA Compliant & WRAS Approved.

Seat and Rail Colour Options RAL & LRV Values

Finish	RAL	LRV
White	9016	87.67
Blue	5011	5.52
Grey	7005	18.52
Dark Grey	7016	8.07
Polished stainless steel		58
Satin stainless steel		41

A minimum of 30 points LRV difference is advised for adjacent surfaces.

Basins

A wide range of wall hung washbasins are available in Doc M packs allowing access for wheelchair users. Most common washbasin sizes are 40cm and 50cm.

WCs

A wide range of raised height WC options are available within Doc M packs, the additional height ensures the WC is easier to mount. WCs include Close Coupled WCs, Back-to-Wall WCs and Low Level WCs. Cisterns are lever operated for ease of use and some Doc M packs also include back support rests.

Seats

Doc M WC seats are supplied incorporating retainers which limit the amount of movement in the seat, this provides a more comfortable solution and prevents seats becoming loose.

Grab Rails

Standard Doc M packs include 5 support rails, with one being a hinged rail that moves up and down to provide clear access to the WC. Grab rails are available with concealed fixings and a wide range of colours are available to visually aid users.

Be Happy...

Guarantee Information

Sanitaryware – Lifetime guarantee against any manufacturing defects on all ceramic

Toilet seats – 5 year guarantee

Brassware – 5 year guarantee on all chrome taps and showers

Acrylic baths – 25 years guarantee on baths, 2 years on bath panels

Steel baths – 2 years guarantee

Flushing mechanisms, concealed cisterns and wall mounting frames – 1 year guarantee

Guarantee Limitations

All product guarantees cover manufacturing defects only. Damage caused by accidental damage, excessive wear and tear or improper installation will not be covered. All guarantees cover the replacement of the original product with the same item if possible. If a product has become obsolete then an alternative similar product will be offered. The cost of re-installation is not covered by the guarantee. Brassware guarantee does not cover damage caused by calcium deposits. Bathroom furniture is designed to withstand a wet environment but does not include immersion or exposure to leaks. Proof of purchase date is required for us to honour these guarantees, please keep your purchase receipts safe. It is not necessary to register your guarantee with us. All guarantees are transferable provided you have the original proof of purchase.

Regular Servicing

Bathroom products include moving parts, joints, connections and valves which will suffer over time if they are not serviced regularly. We recommend that you have your bathroom appliances checked annually by a competent and certified plumber and that you consider replacing flushing mechanisms as soon as there are signs of poor function or water leakage.

Prices

The prices included within this brochure supersede all previous publications with goods being invoiced at prices ruling on date of dispatch. Prices shown are exclusive of VAT and are subject to alteration without notice.

Errors & Omissions

In the interest of continuing design and development and product improvement, Lecico reserve the right to change colour, designs & product specifications without prior notice. All colours/finishes in this brochure are as accurate as the printing process will allow.

Measurements

All dimensions are in millimetres and are nominal, they are provided as guidance only.

Wastes

Wastes are not supplied with freestanding taps, wall mounted taps, bath taps, bath fillers and bath shower mixers.

Cleaning Instructions

Clean with a soft cloth and avoid surfactants and heavily perfumed products. Do not use abrasive scrubbing cleaners or equipment for cleaning. Further guidance is available on request.

The Legal Bit

All items in this brochure are subject to availability and are correct at the time of printing. All dimensions are approximate and subject to normal variation. Although every effort is made not to change information, Lecico reserve the right to do so without notice.
