**TUFF FORM 8**

The new standard in  
wet room formers

# Innovative new design and easy installation, Tuff Form8 has it all

Tuff Form8 is our new level-access wet room former which combines all of Tuff Form's existing benefits with a brand new fitting innovation to create our best, most uncompromising wetroom former to date.

Designed for incredibly easy installation, Tuff Form8's innovative rotating octagonal plate provides 15 different waste positions to avoid all obstructing joists during installation. It also provides the increasingly popular option of placing the waste in the centre of the tray.

The design of the octagonal plate maintains the fall to maximise drainage and eliminate pooling water.

Made from high strength Sheet Moulding Compound (SMC), the quality build and versatility of Tuff Form8 gives the option of tiling or installing safety flooring.

Installation is quick and easy as Tuff Form8 has pre-formed fixing points, therefore no measuring is required. An improved weight limit of 381kg / 60 Stone and a lifetime guarantee, Tuff Form8 has all you need to make the perfect wet room.

### Specifier's Guide

Height of Tray:	22mm
Wood Floor:	Complete Level Access
Concrete Floor:	✓
Screeded Floor:	Complete Level Access
Corner Fitting:	✓
Alcove Fitting:	✓
Tray Handling:	Non-handed
Gravity Waste:	✓
Pumped Waste:	✓
Dry Waste:	✓

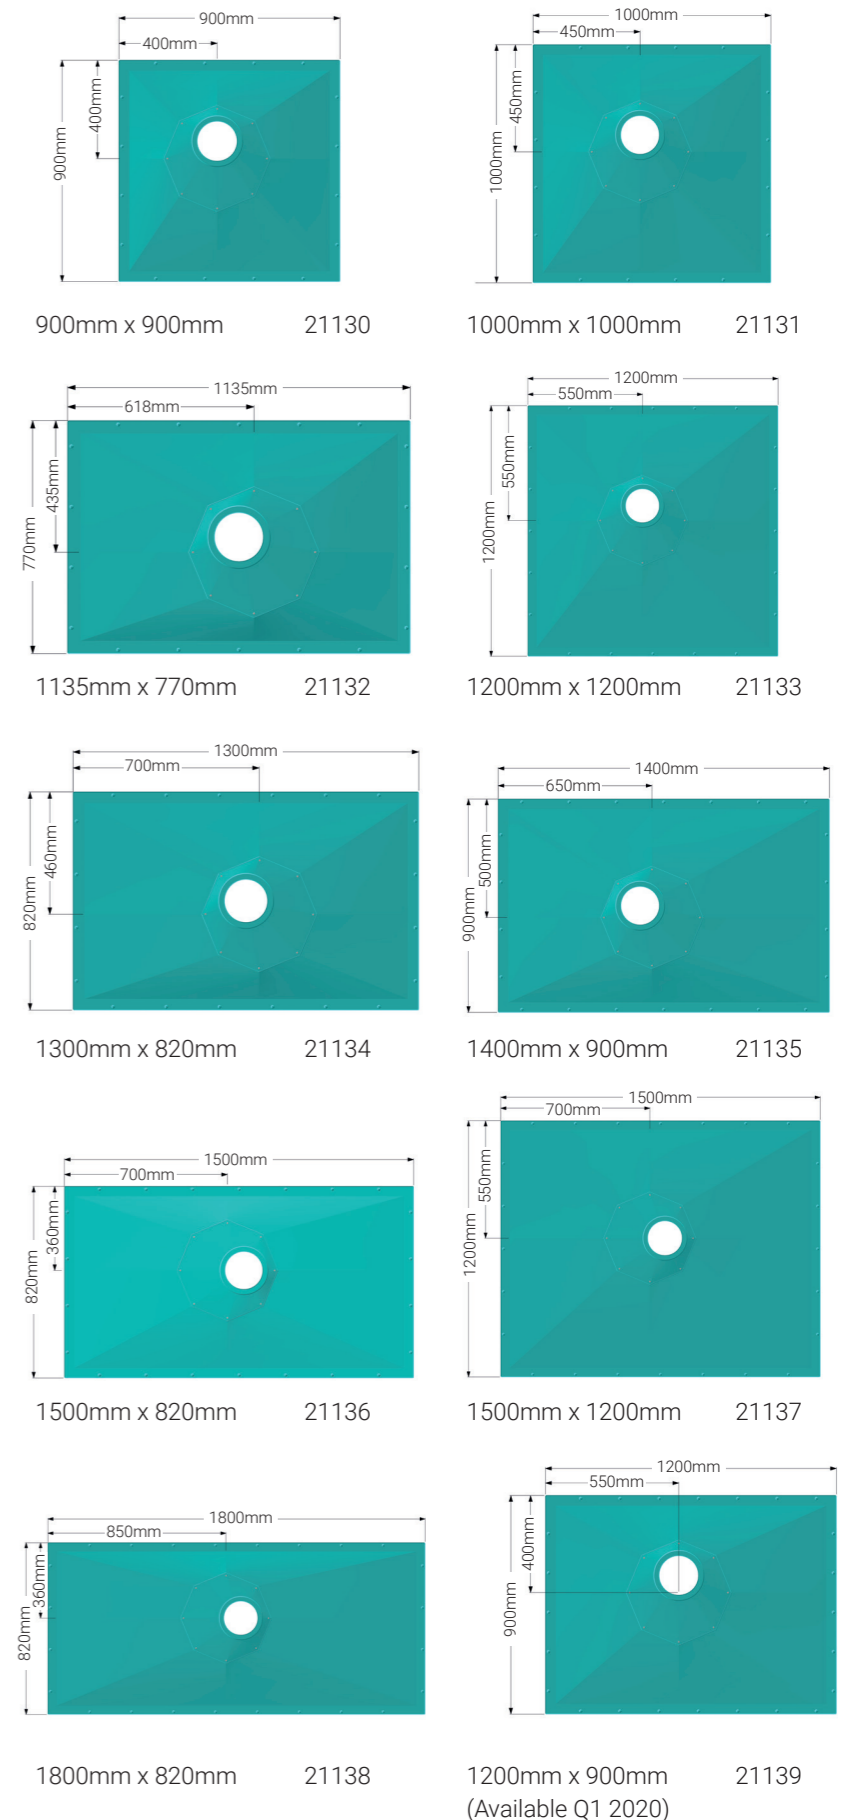

### Product Specification

- + **Thickness:** 22mm to suit the 18mm UK timber floor board + 4mm plywood, no extra adjustment needed for installation
- + **Strength:** 60 stone (381kg) on joists/ Unlimited on concrete
- + **Material:** SMC (Sheet Moulding Compound)
- + **Manufacturing technique:** Compression moulding
