

SAMAC

CATALOGUE VOLUME 3

Samac is a leading distributor of screws, nails and fixings based in Essex, with a range of over 6,000 products.

Established in 2004, Samac supplies builders, timber, roofing and fencing merchants with a constantly growing range of products that is now so much more than the nails for which the company first became known.

With more than 35,000 sq. feet of warehouse space and a turnover in excess of £13 million, Samac supplies both pre-packed and bulk nails, a vast range of screws and fixings, as well as comprehensive ranges of roofing, fencing and building accessories.

Samac also boasts a developing range of branded products including The Performance Range, Viper Collated Nails, Atlas Fixings and Rooftec products with new brands continuously being developed.

	SCREWS	11 - 40
	COLLATED NAILS	41 - 47
	LOOSE NAILS	48 - 73
	FASTENERS AND FIXINGS	74 - 100
	ROOFING PRODUCTS	101 - 121
	BUILDING PRODUCTS	122 - 141
	FENCING PRODUCTS	142 - 145
	WIRE NETTING	146 - 147
	ADHESIVES, SILICONES AND SEALANTS	148 - 163

BESPOKE LABEL SERVICE

At Samac we are proud to consider ourselves one of the UK's leading own branding specialist for nails, screws and fixings. We have a full-time team dedicated to designing, printing, packaging and labelling our wide range of pre-packed products.

Everything from small bags of screws to 20kg tubs of nails are delivered with your bespoke label which can include everything from your logo, address and barcode to your website address and twitter handle.

ADVANTAGES OF OWN BRANDING

Getting more for your money

Samac incorporates the cost of your own label into the cost of the product, meaning you pay competitive prices, whilst receiving free advertising from the products on your shelves.

Build your own brand

If you sell a product with your own label, your brand goes wherever the packaging goes. Nails will often be on site for several days, encouraging passive marketing and giving quick access to all your contact information.

Customer retention

Research shows that once a customer finishes using an own branded product, if they are happy with the quality, they are more likely to return to your shop and purchase the same item as well as others with the same branding.

Sample packaging

SALES TEAM

Samac's external sales team operate nationwide and actively visit and support merchant branches with regular promotions and marketing. The external team are supported by our excellent office-based sales administrators, business development managers and sales director.

DISTRIBUTION

Samac distributes its products throughout the UK via our own fleet of vehicles and national couriers. All stock items are delivered within 48 hours as standard.

ONLINE ORDERING

You can now order all your Samac stock online. Our IT department has been working on connecting our operating system to our website, enabling you to check prices and order online. As a Samac customer you will automatically have your own online account, and on request you will be provided with your login details which can be amended at your first login. Orders placed online will automatically transfer to our operating system, increasing the efficiency with which we are able to process orders and deliver your goods.

Online ordering features:

- Browse our full range of products
- Check prices
- Check your order history
- Access full product information

THE NEW CHAMPION OF COLLATED NAILS

FULL RANGE OF 1ST & 2ND FIX COLLATED NAILS

NAILS WITH
BITE

All 1st Fix Viper Nails comply with Eurocode 5 and our range covers all 3 service classes.

SERVICE CLASS 1 - BRIGHT

Internal use or where the moisture content of the timber does not exceed 12%. Fasteners do not require a corrosion resistant coating.

SERVICE CLASS 2 - ELECTRO GALVANISED

External use where the application is not directly exposed to moisture or where the moisture content does not exceed 20%. Fasteners must have a minimum of 12 microns of zinc galvanising.

SERVICE CLASS 3 - STAINLESS STEEL

External use where the application is directly exposed to moisture or where moisture content is greater than 20%. Fasteners must have a minimum of 43 microns and manufactured from stainless steel.

1ST FIX COLLATED NAILS

FEATURES

- D-clipped head for greater number of nails per strip
- Diamond point for increased penetration

SHANK TYPE

- **Annular Ring** - High pull-out resistance
- **Part Annular Ring** - Increased pull-out resistance for longer lengths whilst maintaining low insertion resistance
- **Smooth** - Low insertion resistance for longer lengths

USES

- Timber Frame • Stud Work
- Roof Battening Joists • Roofing
- Fencing • Packaging

2ND FIX COLLATED NAILS

FEATURES

- Available in straight or 20° angled collation
- T head for concealed fixing
- 16 gauge brads allow low resistance in all materials
- Chisel point
- Available in electro galvanised and stainless steel

USES

- Architraves • Skirting
- Dado Rail • Tongue and Groove
- Window Casing

Nail Packaging

The packaging for Samac's 'pre packed' nails has been significantly updated and the range streamlined, providing retail-targeted packaging and design. This has positively impacted our printing and picking operations whilst increasing efficiency across the board. All Samac pre-packed nails, are dispatched with own brand labels.

50G/100G/250G PACKS

50g and 100g packs of nails are supplied in clear euro slotted bags. 250g packs of nails are supplied in printed euro slotted bags.

500G/1KG PACKS

500g and 1kg packs of nails are supplied in printed euro slotted polythene pouches.

2.5KG PACKS

2.5kg packs of nails are supplied in either printed euro slotted polythene pouches or clear plastic tubs with handles.

5KG/10KG BUCKETS

5kg and 10kg buckets of nails are supplied in clear buckets with handles.

20KG BUCKETS

20kg buckets are available in a selected range of nails and are supplied in white buckets with handles.

25KG BOXES

25kg boxes of nails are available in the majority of our nail range.

Additional stainless steel fixings and fasteners are available on request

ONE PIECE MASONRY ANCHOR

ATLAS

FIXINGS FOR A STRONGER FIX

SUBSTRATE SUITABILITY

ATLAS BOLTS

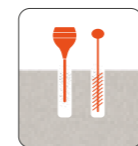

Replacement for traditional expansion anchors. Ideal for fixing battening, fence post supports, racking, handrails etc.

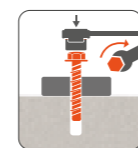

INSTALLATION

1. Drill hole

2. Clean hole

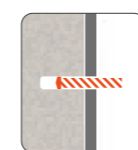

3. Install bolt

ATLAS SCREWS

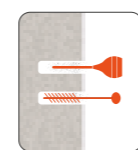

Replacement for traditional plug fixings. For fixing UPVC and timber frames and other light duty fixtures to masonry.

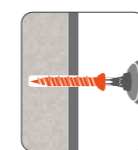

INSTALLATION

1. Drill hole

2. Clean hole

3. Install screw

PE + PESF RESIN: POLYESTER CHEMICAL ANCHOR

ATLAS

CHEMICAL ANCHORS

ATLAS PE RESIN

POLYESTER CHEMICAL ANCHOR

FOR MEDIUM AND LIGHT LOADS

As a styrene based resin, it is only recommended that this product is used **EXTERNALLY**.

ATLAS PE + PESF RESINS

are two component polyester chemical anchors, primarily developed and designed to anchor threaded rods into concrete, masonry and hollow wall substrates. Manufactured in the UK, ATLAS PE and ATLAS PESF resins are suitable for both horizontal and vertical applications. They offer an excellent permanent alternative to traditional expansion anchors, resulting in minimal stress to the substrate and can also be used for close to edge fixing.

ATLAS PESF RESIN

POLYESTER CHEMICAL ANCHOR

FOR MEDIUM LOAD AND DURABILITY

As a styrene free resin, this product can be used **INTERNALLY** and in confined spaces due to low odour emission.

ATLAS BOLTS

ROOFTEC DRY RIDGE

UNIVERSAL DRY RIDGE FIXING SYSTEM

FEATURES

- 320mm wide ridge roll guarantees excellent coverage at any pitch
- Ridge roll provides 5000mm² of ventilation per linear metre
- Dark grey roll creates a seamless finish
- Self-adhesive butyl strip provides a high quality, water tight seal
- Universal ridge unions are compatible with almost all half round and angled ridge tiles
- Stainless steel clamping plates for a more secure finish
- Simple installation is easier and quicker than mortar alternatives
- Vapour permeable
- Wind and water resistant

ROOFTEC FLEX

EPDM LEAD REPLACEMENT

Rooftec Flex is an EPDM-based lead replacement with a core of expanded aluminium mesh, giving the product exceptional strength, flexibility and life expectancy.

USES

- Roof Abutments
- Dormers
- Ridges
- Chimneys
- Valleys
- Skylights

Anywhere you used to install lead.

ADVANTAGES

-  Excellent UV and Ozone Resistance
-  Non Toxic
-  Incredibly Malleable
-  Exceptional Flexibility
-  No scrap value
-  Quick and Easy to Install
-  Super Light Weight
-  Long Roll Lengths
-  40 Year life Expectancy

APPLICATION

Rooftec Flex acts just like traditional lead and should therefore be treated just like lead.

The following guidelines should be followed:

- Prior to applying Rooftec Flex it is important that surfaces should be dry and free from grease, oil and any loose particles.
- If Rooftec Flex is being applied to a porous surface, a primer should be used prior to fitting.
- When shaping Rooftec Flex during mounting, traditional lead tools can be used. Users should also be able to shape part of the application by hand.
- Rooftec Flex can be cut using heavy duty scissors or a sharp knife.
- Unlike lead, Rooftec Flex can be installed in full roll lengths up to 10 metres as it is not susceptible to thermal expansion. However for detailed work shorter roll lengths are recommended for easier shaping and mounting.
- If longer roll lengths are required or it is necessary to join shorter lengths, Rooftec Flex can be overlapped. Ensure a minimum lap of 100mm and seal with a continuous bead of Rooftec H.T. Adhesive.
- When mounting Rooftec Flex on to walls, Rooftec Flashing Clips, nails or rivets should be used to fix in place.
- The edges of Rooftec Flex can be folded to increase strength and make the roof covering even more stable.
- Rooftec Flex can be heat welded to itself and other forms of EPDM using a hot air gun. The recommended temperature is 400°C.

- 100 wipes per pack
- Super-size 38 x 25cm wipes
- Quick clean-up: removes grease, paint, silicone, foam and adhesives
- Super strong pouches that stand up to any environment
- Ultragrime collects the dirt like micro-fibre fabric
- Contains antibacterial agents
- Large absorbance capacity
- Very low foaming
- 100% biodegradable
- Hard time for grime, kind to the environment
- Extra strength scrubbing texture
- Obliterates stubborn grease, dirt, stains, oil and mud
- Proven 99.999% bacteria kill rate, effective within 60 seconds
- Sanitising efficacy EN13727, EN7276, EN14476
- Effective against viruses including Norovirus, Influenza A (H1N1), Herpes Simplex, Hepatitis C Virus, Coronaviruses & SARS-CoV-2

Our Marketing team has created a range of materials to help you raise product and brand awareness within your customer base. Materials include posters, leaflets and external banners providing a combination of technical, installation and product information. As well as a range of readily available promotional materials, Samac are able to create bespoke marketing material for customers included own-branded posters, special offers and even videos with customers logo's and details included. All you need to do is ask.

Monthly special offers are distributed via email and our external sales team, to make sure you benefit from the best deals we can offer. As a Samac customer you will always be the first to know about new products and additional sizes to existing ranges.

Samac also offers a growing range of merchandising stands which can stock the vast majority of Samacs' product range. Merchandising stands are offered free of charge on loan, to display Samac products. Additionally if you need any assistance with stock profiles or the installation of stands, we'll do our best to help!
