

Del Carmen® Heavy

SSQ Del Carmen roofing slate is known for its smooth and uniform finish, deep blue-black unfading colour and exceptional technical properties. Del Carmen will crown your building in a truly spectacular style.

Product information

Product profile

SSQ Del Carmen slate is mined at the Del Carmen quarry, one of the largest quarries in North-West Spain. The quarry is located in the Cabrera Mountains, an area that contains uninterrupted seams of high-quality slate. SSQ's long-term partnership with the Del Carmen quarry has led to the production of exceptionally high-quality roofing slate for over a decade.

In addition to passing SSQ's own, rigorous quality control tests, SSQ Del Carmen Heavy roofing slate has been tested in accordance with EN 12326, carries the UKCA marking and is classified as 'W1-T1-S1'.*

SSQ Del Carmen roofing slate has been accepted by many of the UK's heritage agencies for use on restoration projects or within conservation areas.

* Test results are available on request

Minimum headlap for fixing slates with nails or hooks according to BS 5534: 2014+A2:2018 Code of Practice for Slating and Tiling

Moderate exposure (< 56.5 l/m² per spell)*
