“Purveyors of the curious, the spectacular and
sometimes the delightfully eccentric,
House of Piccadilly is the chosen source
of the discerning homeowner.”

Cherishers of quirky beauty: welcome to House of Piccadilly.

Come on in – even the water feels luxurious.

Jewel-like exquisite finishing touches and design detail sprinkle magic over your bathroom. You'll discover showers to transport you. Towel rails with attitude. Taps and mixers that could have stepped off the catwalk. And more.

We call it brassware. We also call it gorgeous.

Brassware Collection

You could just hop into the bath. You could merely jump in the shower.
You could wash and go. If that's your vibe, wonderful. You'll get clean.

Or, you could transform bathing into the deepest pleasure with House of Piccadilly.
From the spellbinding depths of our design room emerge taps, mixers, showers and accessories
that leave yesterday's bathrooms looking on in gnawing envy.

House of Piccadilly is for the curious, the rebellious, the connoisseurs. It's for those who are
determined to savour every single moment, delighting in the knowledge that a shower is
a waterfall of inspiration and a soak is a life-affirming ritual.

Ready to open the floodgates to a new way of bathing?
Turn the pages and let the luxury overflow.

The Vienna

There's an echo of the past around Vienna's contemporary lines. An elegant contradiction, these are designs for those who refuse to be defined.

Showering

Fans of the ordinary, look away now. When you step into a House of Piccadilly shower, you are setting foot into a style fantasy that is a million miles away from the daily routine.

Whether you're an early bird or a night owl; turn the temperature up minute-by-minute or end on an icy blast, accept only the extraordinary and expect every day to be exceptional.

And, when you turn off the water and return to reality, you never really leave – it's just a pause until the next time.

The Bath and Basin Collection

Bath tubs that draw you in. From the depths of design and decadence, we present the House of Piccadilly bath collection. When it comes to the focal point of your bathroom, fortune favours the brave.

Dip your toe into the grandioso, because when you slip into a House of Piccadilly bath tub you are transported to another time and place; feeling every bit as magnificent as your stately statement piece looks.

Dramatic as it sounds, a basin can make or break a bathroom. We lean towards the dramatic at House of Piccadilly, and basins are no exception. We put our basins on a pedestal for good reason (even if they are countertop).

Sumptuously curved or modestly shallow, every contour just makes sense. Choose one to make a big impact in your smallest room or double down on the decadence with two side by side. Either way, brushing your teeth has never been so opulent.

Stoneware

Celebrators of the unconventional, welcome to House of Piccadilly.

As masters of the art of creating enchanting bathrooms, our stoneware collections set the stage for spellbinding interiors. Baths to bubble up. Basins to pour over. And that's even before we add the special ingredients - taps and accessories.

Devotees of the decadent, the daring and the downright impeccable, we present to you our book of design secrets.

Aluminium Radiators

House of Piccadilly's aluminium radiator collection doesn't shy away from making a statement. These pieces were not designed to blend into the background. From the tall statuesque supermodel-sized styles to the wall-runner radiators that clinch and cinch across inches of the wall, these radiators should never be an afterthought.

The properties of aluminium make it perfectly malleable to make beautiful metallic works of wall art; to incite fascination, influence imagination, inspire conversation – and we're hanging on every word.

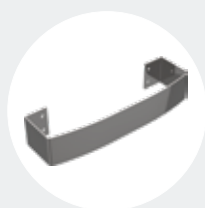

Modern: Aluminium Radiators

Go all in for aluminium and get maximum impact from the sleekest, slickest heating solution.
