

NP
Nail Plate

Nail plates are used to connect two or more timber members together. They are available in a variety of sizes.

Features

Material

- Pre-galvanised mild steel. Grade S250GD

Benefits

- Versatility of applications
- Can be bent on site

Applications

Header member

- **Supporting member:** solid wood, glued-laminated wood, composite lumber, etc.
- **Supported member:** solid wood, glued-laminated wood, composite lumber, triangular trusses, profiles.

Applications

- Post/beam connection
- Jointing
- Repairs
- Assemblies requiring a special bending on site, etc

Nail Plate

Installation

Fixing

- CNA nails Ø4.0
- CSA screws Ø5.0

Installation

- Use all specified fasteners

Attaching wood rafters and square butting rafters.
