

THERMOSTATIC & MANUAL RADIATOR VALVES

FIRST EDITION

WELCOME TO WESTCO

With heritage spanning six decades, Westco is relied on by merchants, plumbers and heating installers nationwide to provide them with the products they need to service every job.

Responsible for bringing some of the UK's most iconic heating and plumbing parts to market, we're recognised for our commitment to innovation and endeavour to source and supply the newest and highest performing products from across the world for our UK customer base.

With our 57,000 sq ft warehouse housing over 5,500 product lines available for immediate dispatch, our merchant customers can be certain that the products their customers need can be delivered quickly, with the minimum of fuss. In addition, with our UK-wide sales team and packaging plant on site, we can ensure you receive end-to-end distribution service entirely suited to your business.

Quality lies at the heart of everything we do - from our dedication to service excellence to our investment in developing the broadest range of accredited products, including BS, A rated and WRAS approvals. With time and financial savings core to our customer-centric approach, we work with manufacturers to introduce labour-saving items that perform to the highest standards. Supported by a technical team who can specify end-to-end solutions for larger projects, installers can rely on Westco. We know the UK's merchants and installers work incredibly hard to satisfy their customers. So we do the same to remain at the cutting edge of our industry and bringing them a product range that is the very best it can be.

OUR STORY

Over the coming years, the business cemented its position as an innovator, moving with the times and introducing a continuous stream of new, sleekly designed, labour-saving items. One of our most popular product lines, the Westerm thermostatic radiator valve, has been updated many times over the decades, with the latest version, the westerm classic, proving just as popular and well designed as the first model, all those years ago.

OUR TIME LINE

1975 - Aalberts established an aluminium precision extrusion company and Aalberts was born. We've grown to operate in more than 50 countries around the world, but have always remained true to our values. With Aalberts currently owning Westco.

1977 - Westco opened a small warehouse in Oldham and quickly developed a reputation for friendly and efficient customer service. As well as launching one of its first iconic products, the Cosmos radiator valve.

2000 - Westco was acquired by French Industrial Group COMAP and we became COMAP WESTCO Ltd.

2018 - We became COMAP UK Ltd. The change was a tangible sign that our company became the sole representative in the UK of COMAP Group's thermal and sanitary efficiency solutions.

2019 - Under Aalberts industries, we joined the Standard Hidraulica Group as STH WESTCO Ltd. We continue to supply iconic products, with the same friendly and efficient service.
