GUIDE

The top section of the image features a close-up of various orange plastic pipes and fittings. The Polypipe logo, consisting of a stylized 'P' inside a circle, is positioned to the left of the brand name 'Polypipe' in a white, sans-serif font.

 **Polypipe**

The middle section shows a close-up of grey plastic pipe fittings. The Polyplumb logo, with 'POLY' in blue and 'PLUMB' in red, is centered over the image.

POLYPLUMB

The bottom section displays several white radiators. The Ultraheat logo, where each letter of 'ULTRAHEAT' is inside a red square, is centered over the radiators.

ULTRAHEAT

Trading details & Information

Ordering

Orders can be placed in the following ways:

- Direct Sales Line: **0208 984 1000**
- Email: **sales@fwhipkin.co.uk**
- Fax: **0208 984 0101**

Our Sales desk is open Monday to Friday from 7am to 5.30pm

Delivery Service

We offer next day delivery service to all our customers, either via our own fleet of vans, or through a selection of our courier partners.

• **Van Route Deliveries:** Daily pre-defined routes in London and the surrounding counties for customers who historically spend £6,000 or more per year. These customers will have no minimum order value* and orders received up to 5.30pm.

*(Minimum order value subject to monthly and yearly spend. Eligibility to qualify for van deliveries at the companies discretion. Customers who fail to meet the minimum spend criteria will automatically default to our carrier service as detailed below.)

• **Carrier Service:** Areas not covered by our daily van routes will be serviced on a next day basis for orders received before 4pm. Minimum order value for free carriage is £50.00 + VAT (excludes Channel Islands). Back orders for Carrier Order Customers will have to make up a carriage paid order when the item is back in stock.

• **Large and Obscure Items Carrier Service:** Due to areas not covered, items that we are unable to deliver via our own fleet will be sent via a pallet. These items must be ordered by 1pm for next day delivery. Minimum order value for free carriage is £125.00 + VAT. Large items include shower doors, bath panels, shower cabinets and radiators, this is to ensure items are delivered in a perfect sellable condition.

Returns Policy

Collection requests for credit or replacement of faulty items must be made through our sales team on the contact number above. Drivers can only accept goods with a valid collection note.

- Goods returned for credit must be in original packaging, untouched and in a good re-saleable condition.
- Faulty goods will be considered for replacement at the discretion of FW Hipkin and will be evaluated on a case by case basis, depending on age of item and circumstances for return.
- FW Hipkin reserve the right to charge a restocking fee varying between 10%-20% of original item value at our discretion for both returned for credit items and faulty goods.

Any claims for incorrect, short delivered or damaged items must be made within 72 hours of the goods being delivered.

Customer Collections

All orders placed for collection will be picked and packed straight away and will be available shortly after the order was placed. Collections will be available from 7am to 5.30pm.

Payment Options

In addition to our customers account facilities, we can also take payment for individual orders or end of month account balances via credit card. Surcharge on American Express only 1.5%. For customers wishing to pay by BACS: Sort Code 20-25-42, Account Number 50794368, Barclays Bank PLC

Special Offers

Throughout the year we will send you information regarding special offers and discounted products. These offers will be sent out via email and printed copies will also be given to sales reps to give to you during their visit.

Price Increase Notifications

We take every care to ensure the prices in this book are correct at time of publication, however, due to the increases in raw material costs, currency fluctuations and rising fuel costs which are out of our control, our suppliers from time to time, will impose price increases on us, and in turn prices will be subject to change. In order to keep our customers fully informed of any price increases, we will always notify our customer base via email as soon as such increases occur. Email is the only delivery method that we can track the receipt of such notifications and ensure the information is received by our customers in a timely fashion. We will only send price increases to the email address registered on our system against our customer records. If you currently receive order notifications from us you have an email address registered with us. If in any doubt or you wish to confirm this, please contact our sales team.

Product Choice

We currently stock over 8,000 products and list many more on our system. We also travel the world to source competitively priced quality products for you, however if you feel that there are any items which we should be stocking please inform us. We are constantly striving to improve our product offering, and when we introduce new ranges or items we will automatically notify you via the email address registered on our system.

Electronic Price Lists

In this computer based era we are increasingly asked to provide various price lists for product groups or ranges, allowing our customers to import bulk prices into Back Office and Point of Sale computer systems. These price lists can be provided on a Microsoft Excel or Comma Separated Text File, and so updating and mass importing of price lists has never been easier. Please ask our sales team for more details.

Channel Programmmer

KEYPLUMB
WWW.KEYPLUMB.COM

Specifications:

- Model Options: Single, Dual or Three Channel Output
- Frost protection adjustable between 5C & 20C
- Holiday Function
- Blue backlight
- +1 hour override (Boost) - 1 to 9 hour boost selectable
- Summer winter changeover (DST)
- Operating modes: Once, Three periods, Continuous
- Configurable for 5/2 day or 7 day programming
- 1 year battery backup retains program and time settings. Replaceable Lithium cell CR2032
- Room temperature display
- Power Supply: 230VAC 50/60 Hz
- Output contact rating @ 230VAC 3 (1) Amp

	FGP-915-10H-12	Silicone Tape Yellow 25mm wide x 11m length	£29.12
	FGP-915-20H12PO	Silicone Tape Yellow 50mm wide x 11m length	£54.69

Pipe Cutter	Part Number	Description	List Price (ex. VAT)
	FGP-TC-151	Rigid Cutter 151	£93.16
	FGP-TC-152	Rigid Cutter 152	£138.84
	FGP-E-5272	Cutter Wheel	£14.84

Note - Special tools not required. To cut DN32-DN50 use a cutting wheel FGP-E-5272 or equal.

How to Assemble Fittings to TracPipe®

1. CUT TO LENGTH

TracPipe is marked every meter as an installation aid. Use a wheeled tube cutter with a stainless steel blade. Cut through plastic cover and stainless steel pipe ensuring blade is centered between two corrugations. Use full circular strokes in one direction and tighten roller pressure slightly (a quarter turn) after each revolution. Ensure a clean cut with no tags.

2. STRIP COVER

Using a utility knife, strip back the plastic cover about 25mm back from the cut end to allow assembly of fittings.

3. INSTALL BACK NUT

Slide the back nut over the cut end. Place the two split rings in to the first corrugation next to the pipe cut. Slide the back nut forward to trap the rings.

4. FIT AUTOFLARE FITTING

Place the AutoFlare fitting in to the back nut and engage threads. Note that the AutoFlare fitting is designed to form a metal-on-metal leak-tight seat on the piping as you tighten the fitting. No paste should be used. Using appropriate wrenches, tighten the fitting until the resistance to wrenching increases greatly. The flare has now been created on the piping end.

5. FINAL TORQUE

Tighten nut and body as though you were making up a flared tubing joint. Note the relation between hex flats at this point and continue to tighten for two additional hex flats (one-third turn) to obtain required torque and final leak-tight seal.

Ensure no more than two threads are on view when tightened.

6. TAPE WRAP

After gas tightness test.

Care must be taken after pressure test to ensure that no stainless steel pipe is visible. Any portions of exposed stainless steel behind the fitting nut shall be wrapped with TracPipe self-bonding silicone tape. This will reduce the possibility of later corrosive attack.

HEATING CIRCULATORS

Description: ERP Compliant, Energy efficient Heating circulator. Features 3 Fixed speeds, 6 Proportional speeds, Fault indicator & External wiring block.

MODEL	PART NO	HEAD	GUARANTEE	PRICE
Evosta 40-70/130	60161174	4/5/6m	3 Years	

Description: ERP Compliant, Energy efficient Heating circulators. Features 3 Fixed, 6 Proportional and 3 Constant pressure speeds. Fault indicator, Smart night time reduction mode, Insulation case & Easy plug connection.

WELD-ON

Solvent Cement for PVC

Medium bodied, very fast setting, low VOC PVC cement for all classes and schedules with interference fit through 6" (160 mm) diameter, Schedule 80 through 4" (110 mm) diameter. High strength and very fast setting speed make this cement ideal for irrigation, agriculture, pool and plumbing applications. For wet or quick pressurization conditions. Can be used without primer on non-pressure systems if local codes permit

Aquastrap

Aquastrap is a flexible retro-fit up-stand seal installed onto the perimeter side walls of shower trays and baths before final location against adjacent walls. When installed, the up-stand is sandwiched between the wall and tile while a silicone joint is maintained between the bottom edge of the tile and ledge.

- Sealant isolating membranes
- A seal alignment cord
- Two butyl release liners

Heating tools for professionals

Handyjet Torch with Piezo and Footstand

The new handyjet has a new powerful, efficient and windstable multi-purpose burner. The new unique burner is designed with a preheating tube, that heats up the gas before combustion. This means that our new handyjet can be used upside down without any flare-ups.

PART NO	DESCRIPTION	PRICE
228101	with Footstand	
228101X	with Piezo and Footstand	

Powergas Cartridge 300/600ml

Our filling of gas cartridges is controlled with the greatest of care. An automated weight control on the production line weighs each individual cartridge. The cartridge is then tested for leaks by immersing it in a 55 degree water bath for three minutes. If the cartridge weight is wrong or if gas is leaking during the test, its automatically removed from the production line. The various safety steps in the process guarantee the highest quality for our customers.

PART NO	SIZE	PRICE
220383	300ml	
220483	600ml	

Powerjet & Free Powercase

The most powerful and efficient torch system in the market. The ergonomic handle is both long lasting and reliable. Automatic Piezo ignition (up to 30000 ignitions) Trigger on/off function helps preventing LPG wastage. Anti-flare enables the torch to operate in all positions (360) Full range of 6 easily interchangeable burners. Easy exchange of nozzles. Designed for use with MAPP but also suitable for use with Propane, Ultramapp and Ultragas.

Water saving solutions

TURBO 88™ DUOFLUSH 2-PART SYPHON

WRAS approved, market-leading flushing syphon that incorporates a patented Dudley Duoflush facility. This delivers a water-saving reduced flush when the lever is depressed and held down.

A unique patented 2-part design enables servicing to be completed in under 5 minutes without having to disconnect the water supply and dismantle the cistern.

6/7/9 litre convertible with a 38mm (1½" outlet).

ADJUSTABLE VERSION

In addition to the range of fixed height Turbo 88 syphons, an adjustable version is now available. This quickly and easily extends from 7½" - 9½" to fit most lever operated cisterns and provides an extremely convenient solution.

ADJUSTABLE

DUOFLUSH NIAGARA MECHANICAL FLUSHING VALVE

WRAS approved mechanical dualflush WC valve that provides water-saving 6/4 litre dualflush and supports **BREEAM**.

The Niagara comes with a 51mm (2") outlet and long life silicon rubber seal. Its unique design enables the valve body to be simply removed from the cistern. Servicing can then be completed in under 5 minutes.

The Niagara is manufactured in the UK for the UK market, is WRAS approved and spares are readily available. The valve is also Water Technology List registered. As such, businesses can offset the cost of the valve and any costs directly associated with its installation against taxation.

DUDLEY MINIFLO

411MM (W) X 276MM (H) X 131MM (D)

With water conservation in mind, the pneumatically operated Miniflo provides 6/4 litre dualflush flushing. The cistern can also be quickly converted to 5/3 or 4/2.6 litre dualflush. In addition, the Miniflo is supplied factory assembled and with a true push-fit flushbend and installer-friendly one piece hanging bracket. The Miniflo fits neatly into 150mm ducts and is ideal for use behind tiles in conjunction with a removable or hinged vanity top and behind partitions. It can also be used in most other concealed applications. The cistern and its Dudley Hydroflo inlet valve and Dudley Niagara flushing valve are all WRAS approved.

Dual flush with cable

OPTIMA 50

DESCRIPTION

- Can be installed into plastic or ceramic cisterns
- Push button: dual flush
- Actuation effort below 20N
- For lid holes ranging from 16 to 50mm, with or without collar depending on diameter
- Cable operated: allows an actuation at distance, lateral or head-on position
- Over flow can be cut in increments of 4mm
- Adjustable small flush from 2l to 4.5l
- Adjustable dead water level
- High flush rate of 3.5l/s

- Foam pan seal supplied for compensating pan irregularity

Dual flush telescopic OPTIMA 49

Adjustable height (B):
With collar: from
282 to 430mm (lid hole Ø
ranging from 16 to 38mm
and 43 to 50mm)
Without: from 300 to
448mm (lid hole Ø ranging
from 39 to 42mm)
Adjustable overflow height
(C): 155 to 245mm
Compatible with:
Lid hole Ø (A) from
16 to 50mm
Drainage hole Ø (D)
from 58 to 72mm

DESCRIPTION

- Can be installed into plastic or ceramic cisterns
- Push button: dual flush
- Actuation effort below 20 Newton
- For lid holes ranging from Ø 16 to 50mm, with or without collar depending on the diameter
- Button off-center +/- 15mm
- Stirrup : adjustable in increments of 12mm
- Overflow can be cut in increments of 4mm
- Adjustable small flush from 2l to 4.5l
- Adjustable dead water level
- High flush rate of 3.5l/s
- Foam pan seal supplied for compensating pan irregularity

Dual flush telescopic OPTIMA S

Optima S flush valve available in a pack with the Delayed Action 99T BP inlet valve

Compatible with:
Lid hole Ø (A) from
16 to 50mm
Drainage hole Ø (D)
from 58 to 72mm
Adjustable height (B):
With collar: from
282 to 432mm (lid hole Ø
ranging from 16 to 38mm
and 43 to 50mm)
Without: from 300 to 445mm
(lid hole Ø ranging from
39 to 42mm)
Adjustable telescopic overflow
height (C): 185 to 325mm

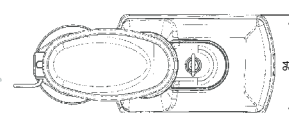

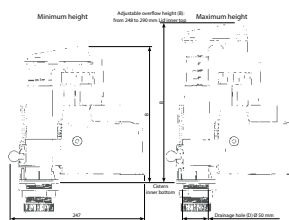

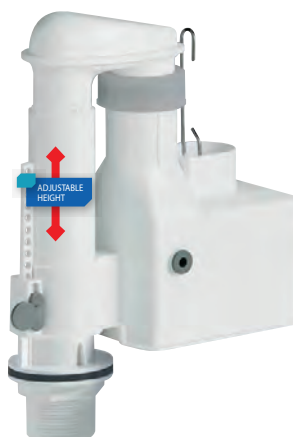

DESCRIPTION

- Can be installed into ceramic or plastic cisterns, for replacement or as original equipment
- Push button: dual flush
- Actuation effort below 20 Newton
- For lid holes ranging from 16 to 50mm, with or without collar depending on the diameter
- Button off-center +/- 15mm
- Stirrup: adjustable in increments of 10 mm
- Adjustable overflow, in increments of 10mm
- Adjustable small flush, from 2l to 4.5l (no cutting required)
- Adjustable deadwater level up to 60 mm
- High flush rate of 3.5l/s
- Foam pan seal supplied for compensating pan irregularity

Part No	Type	Price
32700410	Optima S	
37941110	Optima S/99T BP 1/2" Brass OD Deluxe Component Pack

Adjustable siphon UNISIPHON

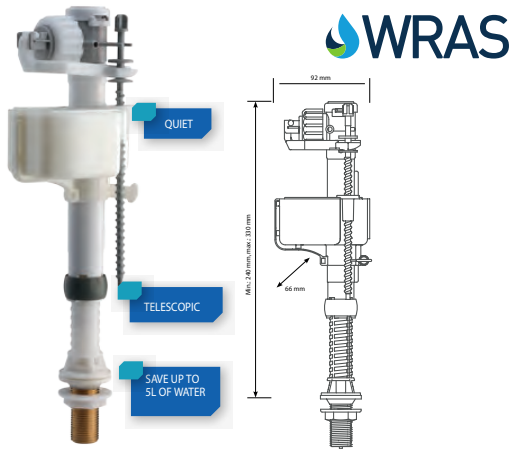

DESCRIPTION

- To be installed into plastic or ceramic cisterns
- One adjustable height siphon for replacing many of the current specific height ones
- Adjustable height from 7 1/2" (248mm.) to 9 1/2" (290mm.)
- Featuring overflow
- Adjustable flush volume
- Adjustable dead water level
- 2 part siphon easy to maintain without the need for cistern disassembly

Part No	Type	Price
32800407	Unisiphon	

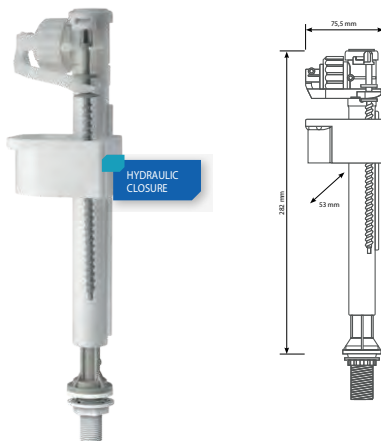

Hydraulic

COMPACT OD 99T BP**DESCRIPTION**

- Delayed action
- Low pressure
- Compact with telescopic adjustment
- Can be installed into ceramic or plastic cisterns, recessed or low level cisterns, for replacement or as original equipment
- Hydraulic closure (no water hammer shock)
- Adjustable water level
- Quiet
- Anti-backflow function
- From 0.1 to 10 bar
- Flow rate 0.23l/s at 3 bars
- 1/2" brass

Part No	Type	Price
30992310	Low Pressure 1/2" Brass Delayed Action	

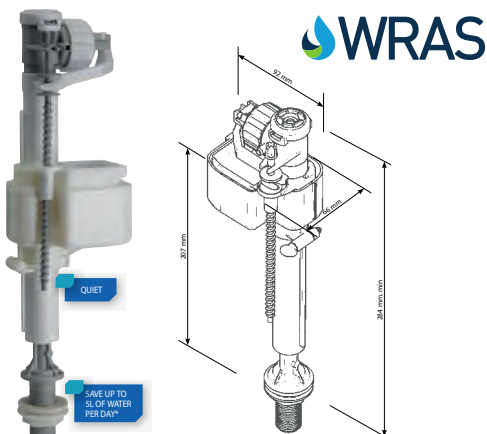

Hydraulic

COMPACT 99B**DESCRIPTION**

- Compact
- Can be installed into ceramic or plastic cisterns, for replacement or as original equipment
- Hydraulic closure (no water hammer shock)
- Adjustable water level
- Quiet
- Anti-backflow function
- Flow from 0.15l/s at 3 bars
- From 0.5 to 10 bar

Part No	Type	Price
30996007	1/2" Plastic	

Hydraulic with delayed action

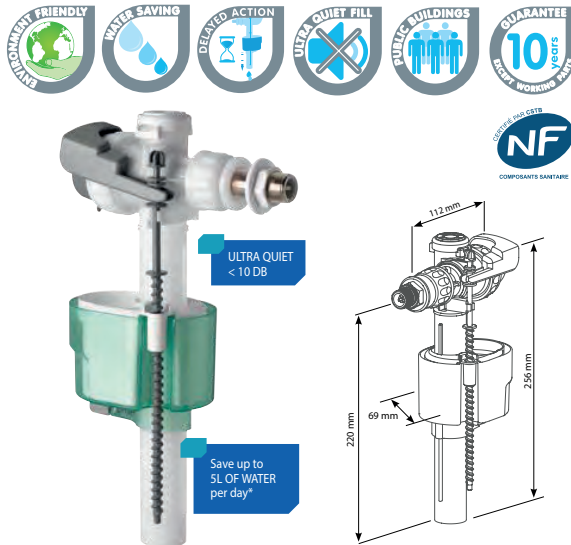

COMPACT OD BP**DESCRIPTION**

- Low pressure
- 99 OD saves water by delaying cistern filling while flush valve is opened
- Compact
- Can be installed into ceramic or plastic cisterns, for replacement or as original equipment
- Hydraulic closure (no water hammer shock)
- Adjustable water level
- Quiet
- Anti-backflow function
- 1/2" plastic connection
- Flow rate: 0.22l/s at 3 bars
- Pressure function range: 0.1 to 10 bar

Part No	Type	Price
30991107	Low Pressure 1/2" Plastic Delayed Inlet Valve	

Hydraulic with delayed action

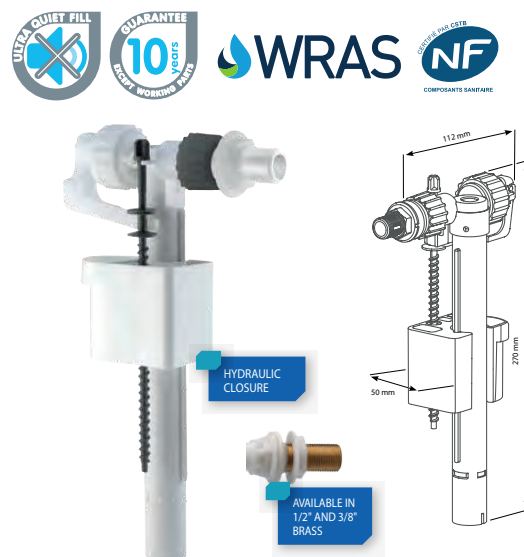

95 OD

DESCRIPTION

- Ultra quiet : 16 times more quiet than a traditional inlet valve
- The delayed action opening case delays the filing of the cistern while the flush valve is open
- Can be installed into ceramic or plastic cisterns, recessed or low level, for replacement or as original equipment
- Compact
- Hydraulic closure (no water hammer shock)
- Adjustable water level
- Anti-backflow function
- Nickel coated 3/8" brass end-fitting
- Flow rate: 0.12 l/s at 3 bars
- Pressure function range: from 0.5 to 12 bars

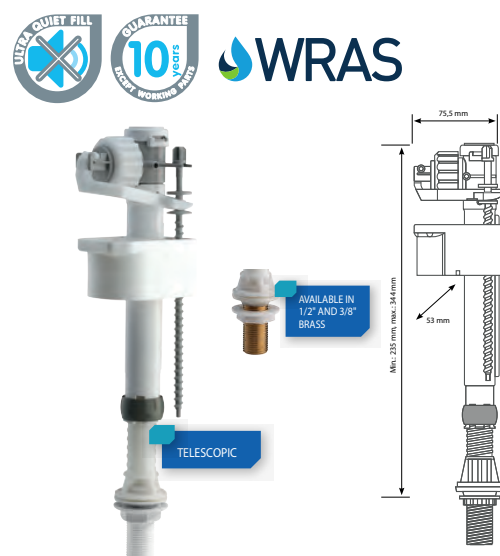

Part No	Type	Price
30778110	95 OD	

Hydraulic
COMPACT 95L

DESCRIPTION

- Compact
- Can be installed into ceramic or plastic cisterns, recessed or low level cisterns, for replacement or as original equipment
- Hydraulic closure (no water hammer shock)
- Adjustable water level
- Quiet
- Anti-backflow function
- Filter can be reached without disconnecting from water supply
- 1/2" plastic, 1/2" & 3/8" brass end-fitting
 - 1/2" plastic:
 - flow rate : 0.14l/s at 3 bars
 - Pressure function range from 0.5 to 10 bars
 - 1/2" brass:
 - flow rate : 0.14l/s at 3 bars
 - Pressure function range from 0.5 to 10 bars
 - 3/8" brass :
 - flow rate : 0.13l/s at 3 bars
 - Pressure function range from 0.5 to 10 bars

Part No	Type	Price
30950607	1/2" Plastic

Concealed cistern TRUEFLOW

DESCRIPTION

- For back to wall WC
- For use inside wall or furniture
- Low level installation
- Wall or furniture fixing
- Remote cable flushing
- Bright chrome dual flush top or front flushing
- Cistern and lid made from PS
- 6 litres cistern. Conforms to EN 14055 class 2 flushing standards
- Dual flush cable outlet valve, 6/4l. factory preset. WRAS and NF approved
- Quiet fill inlet valve
- Bottom inlet supply
- 1/2" plastic water inlet connection
- Height and depth adjustable supply pipe with pan seal

Part No	Price
31014718	

Concealed cistern INTRA CABLE ECO Bottom inlet

DESCRIPTION

- For back to wall WC
- Recessed with an access cover inside wall or furniture
- Low level installation
- Wall or furniture fixing
- Remote cable flushing
- Bright chrome dual flush top or front flushing
- Cistern and lid made from HDPE
- 6 litres insulated cistern. Conforms to EN 14055 class 2 flushing standards
- Outer anti-condensation PSE insulation
- Dual flush cable outlet valve, 6/4l. factory preset, adjustable at 4/2,6l. on site. WRAS and NF approved
- Water saving and quiet fill delayed action inlet valve
- Bottom inlet supply
- 1/2" brass water inlet connection
- Height and depth adjustable supply pipe with pan seal
- Can be adapted for less able use

Part No	Price
31015010	

Concealed cistern INTRASLIM B

DESCRIPTION

- For wall hung or back to wall WC
- Recessed dry wall installation
- Low level installation
- Fixed on supporting wall
- Choice of mechanical dual flush front flush plates
- Cistern made from HDPE
- 6 litres insulated cistern. Conforms to EN 14055 class 2 flushing standards
- Outer anti-condensation PSE insulation
- Dual flush outlet valve, 6/4l. factory preset, adjustable at 4,5/3l. on site
- Quiet fill inlet valve. WRAS and NF approved
- Water inlet connection on the inside of the cistern with 1/2" brass isolating valve
- Supply pipe with reversible fixing bracket
- Supply sleeve with pan seal

Part No	Price
31903210	

Concealed cistern INTRA CABLE Bottom inlet

DESCRIPTION

- For back to wall WC
- Recessed with an access cover inside wall or furniture
- Low level installation
- Wall or furniture fixing
- Remote cable flushing
- Bright chrome dual flush top or front flushing
- Cistern and lid made from HDPE
- 6 litres insulated cistern. Conforms to EN 14055 class 2 flushing standards
- Outer anti-condensation PSE insulation
- Dual flush cable outlet valve, 6/4l. factory preset. WRAS and NF approved
- Quiet fill inlet valve
- Bottom inlet supply
- 1/2" plastic water inlet connection
- Height and depth adjustable supply pipe with pan seal
- Can be adapted for less able use

31014710	

Concealed cistern INTRA CABLE Side inlet

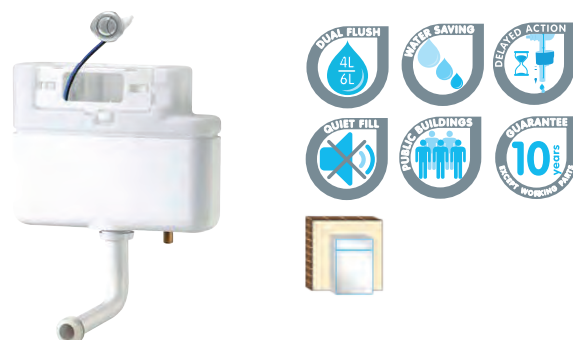

DESCRIPTION

- For back to wall WC
- Recessed with an access cover inside wall or furniture
- Low level installation
- Wall or furniture fixing
- Remote cable flushing
- Bright chrome dual flush top or front flushing
- Cistern and lid made from HDPE
- 6 litres insulated cistern. Conforms to EN 14055 class 2 flushing standards
- Outer anti-condensation PSE insulation
- Dual flush cable outlet valve, 6/4l. factory preset. WRAS and NF approved
- Quiet fill inlet valve
- Side inlet supply on the right
- 1/2" brass water inlet connection
- Height and depth adjustable supply pipe with pan seal
- Can be adapted for less able use

31014810	

Concealed cistern INTRA PNEUMATIC Bottom inlet

DESCRIPTION

- For back to wall WC
- Recessed with an access cover inside wall or furniture
- Low level installation
- Wall or furniture fixing
- Remote pneumatic flushing
- Bright chrome dual flush flushing
- 2m air hose with corrugated pipe protection
- Cistern and lid made from HDPE
- 6 litres insulated cistern. Conforms to EN 14055 class 2 flushing standards
- Outer anti-condensation PSE insulation
- Dual flush pneumatic outlet valve, 6/4l. factory preset. WRAS and NF approved
- Quiet fill inlet valve
- Bottom inlet supply
- 1/2" plastic water inlet connection
- Height and depth adjustable supply pipe with pan seal
- Can be adapted for less able use

SCU 350 WC (frame only) 31250510

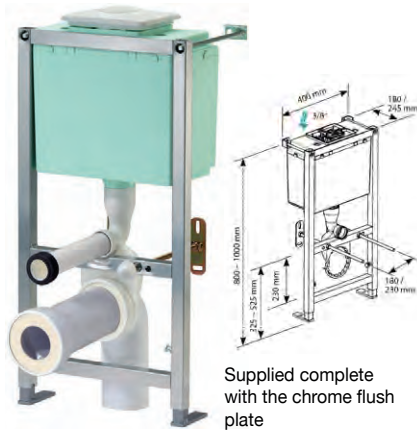

DESCRIPTION

- For installing a wall hung-standard or extended bidet
- Self supporting wall frame bearing a 400kg load
- Designed for floor or wall installation
- Steel tube structure, 45x45x1,5mm, electro-welded and anticorrosion treated, (epoxy paint withstanding 200 hours of salt spray)
- Bidet fixing using threaded rods
- Feet are made from epoxy painted steel plate (140x80x8mm) and electro-welded epoxy painted steel tubes (40x40x4mm), fixed to the floor
- Accepts bidet supply bent pipes from Ø 30 to 50mm
- Accepts bidet drain bent pipes from Ø 90 to 120mm
- Cistern or pressure bidet supply
- Supply bent pipe is maintained thanks to one clip collar
- Drainage pipe is maintained thanks to one clip collar
- Bidet drainage Ø38 ~ Ø45 mm fixation by one collar

SMART

Can be installed on BCM 790, BCM - BCU 350 and Intraslim B

Bright chrome

Matt chrome

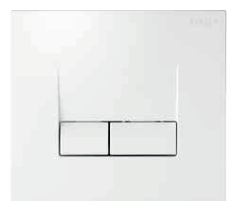

DESCRIPTION

- Modern design
- Made from aluminium alloy
- Decorative versions : bright chrome plated and matt chrome finish
- Vandal resistant
- Dual flush
- Mechanical actuation
- Actuation force below 20 Newton
- Smooth actuating screws to avoid operating noise
- Hand cuttable fixing and actuation screws for adapting length to cladding
- Flush plate serves as an access point for reaching the cistern equipment
- Cladding thickness between 16 and 100 mm

SMART MV INFRA-RED

Can be installed on BCM - BCU 350

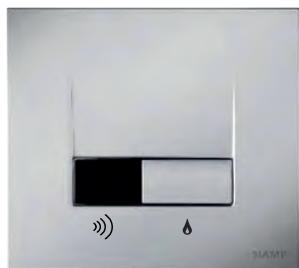

DESCRIPTION

- Modern and smart design
- Made from aluminium alloy
- Matt chrome finish
- Automatic pan flushing
- User does not need to touch buttons, which prevents bacteria, mould and fungi transmission
- Vandal resistant
- Single flush
- Automatic infra-red actuation:
 - senses user presence after 12 seconds
 - infra-red beam reaches a distance of 60 cm and has a 22° radius from sensor
 - flushes once user has left
 - servomotor flush valve actuation
 - very low voltage power supply (using transformer)
- Failure function:
 - Flush can be performed with manual button
 - Actuation force below 20 Newton
- Smooth actuating screws to avoid operating noise
- Hand cuttable fixing and actuation screws for adapting length to cladding
- Flush plate serves as an access point for reaching the cistern equipment
- Cladding thickness between 16 and 100 mm

CHRONO

Innovative technology for a record installation time

*Complete with WRAS approved fittings

The Chrono frame can be installed up to twice as fast thanks to its pre-assembled components and intuitive fitting procedure.

EASY ADJUSTMENT

of the push plate to the thickness of the support with no need for tools or cutting

INNOVATIVE INSULATION SYSTEM

Ecological double-skin anti-condensation cistern (free from polystyrene foam)

SIMPLE HEIGHT ADJUSTMENT

Height adjustable legs with integrated braking system

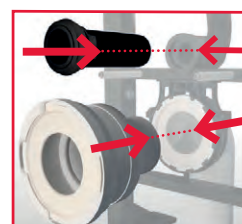

INSTALLATION WITHOUT MOVING THE PRODUCT

Simple adjustment when fixing to wall even if uneven

EASY ACCESS TO THE CISTERN

Large front access panel for easy servicing

EASY PAN INSTALLATION

No measuring or cutting of pan or flush pipe

Floor to Ceiling Post

The Floor to Ceiling post can be fitted to any Scudo 8mm Wetroom Panel. Supplied in two sections, the post can be easily cut down to suit any ceiling height under 3 metres. The post can be secured to a shower tray or tiled floor, as well as the ceiling to create a stable, practical addition to your wetroom installation.

Deflector Panels

- > 6mm toughened safety glass
- > Lifetime guarantee
- > Acqua shield glass treatment
- > Both pivot 180°

Deflector panels are a great way to keep water inside your shower. We offer a frameless model and a semi frameless model. One uses a full length polished aluminium hinge which clamps the glass along its 2 metre height, the other frameless design uses 2 robust hinges to clamp the glass with a more minimal design.

PERK

Installation type: low level

Flush volume: 6L

Fixing material: Included

Colour: White

Pneumatic hoses kit for remote installation: not included

Made of resistant and long-lasting materials, with a simple and reliable operation, Perk distinguishes itself even further due to its rounded finish that fits in perfectly with modern floors and sanitary appliances, placing itself in the situation where a cistern must also satisfy precise aesthetic criteria, becoming an integral part of the bathroom furnishing.

The top section of the image features a close-up of various orange plastic pipes and fittings. The Polypipe logo, which consists of a stylized 'P' inside a circle, is positioned to the left of the brand name 'Polypipe' in a white, sans-serif font.

 **Polypipe**

The middle section shows a close-up of a grey plastic pipe fitting. The Polyplumb logo, with 'POLY' in blue and 'PLUMB' in red, is overlaid on the image.

POLYPLUMB

The bottom section of the image displays several white radiators. The Ultraheat logo, which reads 'ULTRAHEAT' in white capital letters on a red background, is centered over the radiators.

ULTRAHEAT

FW HIPKIN

A family business since 1890
