

OX[®]

OUR STORY

OX Tools is a world leading manufacturer of hand tools, diamond tools, tool storage and safety products.

Founded in Australia in 1974, OX is recognised as tough, dynamic and different across the globe.

As a manufacturer of professional tools, we sell direct to the re-sellers, providing them with excellent service, innovative merchandising solutions and an award-winning brand.

Our global online presence and unique Tuff Club membership program provides a community of tradespeople benefitting from shared experience and knowledge embedding our 'live the trade' attitude into the foundation of building sites around the globe.

NO BULL. JUST OX.

Issue date: June 2024.

A MESSAGE FROM OUR MANAGING DIRECTOR:

OX Tools is committed to delivering top-quality products that meet the evolving needs of our customers. We take immense pride in our reputation for durability, reliability, and cutting-edge design. As we move forward, rest assured that these values remain at the core of everything we do.

I am excited to announce that we have been diligently working on expanding our product lines to encompass a wider range of industries and applications. Our team has been developing groundbreaking solutions that will not only streamline work processes but also elevate craftsmanship to new heights. From enhanced ergonomics to advanced technological features, these upcoming releases are a testament to our dedication to excellence.

IN OUR PURSUIT OF EXCELLENCE, SUSTAINABILITY IS A KEY FACTOR WE ARE FOCUSING ON.

We are actively taking steps to reduce our environmental footprint by implementing eco-friendly practices throughout our operations. Our commitment to sustainability aligns with our responsibility to contribute positively to the world we live in.

Furthermore, our dedication to exceptional customer service remains unwavering. We are investing in resources to ensure that your experiences with OX Tools continue to be smooth, informative, and reliable. Our customer support team is readily available to assist you with any inquiries, feedback, or concerns you might have.

As we stand on the threshold of a new chapter at OX Tools, I invite you to join us on this exciting journey.

YOUR CONTINUED SUPPORT AND FEEDBACK ARE INVALUABLE AS WE STRIVE TO SHAPE THE FUTURE OF THE TOOLS AND EQUIPMENT INDUSTRY TOGETHER.

MANAGING DIRECTOR – NORTH AMERICA

A GREENER BRAND...

The commitments made by OX Tools to ensure a more sustainable future cover 6 core areas: vehicles fuel, printing & ink, packaging, recycling, lighting & electrical and shipping. We are committed to reducing waste and becoming a more sustainable brand.

We are proud to be transparently transforming the OX of today to ensure there is an OX of tomorrow. The greener, blue brand.

OUR COMMITMENT

We are committed to minimizing our environmental impact to sustain the world we live in together.

PACKAGING

We are committed to a lifecycle approach to the use of our packaging. Over 5 million products pass through the OX Tools USA warehouse every year. Every product requires well-designed, efficiently packed, appropriately used and responsibly disposed of packaging.

We also actively engage with our factories across the globe to develop more environmentally sustainable packaging options. In cases where plastic was being used, we are transitioning to card and for the plastic still in use we are reducing single use packaging where possible and moving towards recycled plastic.

REDUCING

excessive and inappropriate use of materials.

RECYCLING

waste material to ensure a closed loop system.

OPTIMIZING

shipments ensuring boxes are loaded to capacity without risking damage.

TUFF CLUB

**BECOME AN OX TUFF CLUB
MEMBER TODAY!**

The OX Tuff Club members community feeds directly back into the future of OX product innovation. With regular surveys and polls Tuff Club identifies what tradespeople want and need from their tools.

EVENTS, OFFERS & PROMOTIONS

Receive the latest news, event and special offer awareness notifications before anyone else.

PRODUCT TESTING OPPORTUNITIES

Take part in product testing and help shape the future of OX products.

SECTION 01

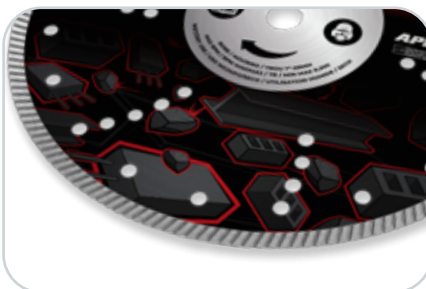

DIAMOND BLADES

WORLD LEADING TECHNOLOGY

Only the finest quality of diamond is used in the production of OX blades.

State of the art laser technology for ultimate performance and safety.

Blade & cores are made of the highest quality steel, precision engineered, ground and hardened.

EN13236

All blades conform with EN13236 and have this engraved onto the centre of the products

Full 'No Hassle' Guarantee

Covers all OX products

Diamond Innovation

Ongoing development provides increased performance on existing products, and innovative new diamond solutions.

Safety Instructions

Products undergo rigorous safety and vibration testing at our research & development facility, and in the field.

Hand/Arm Vibration

OX products were among the first to be tested and certified safe for hand/arm vibration.

Extra Safe

Our safety policy is an integral part of our company ethos with policies incorporating ISO18001.

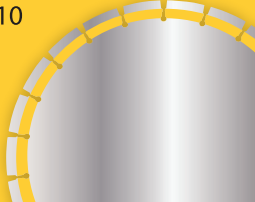

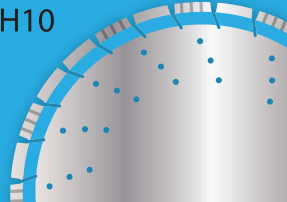

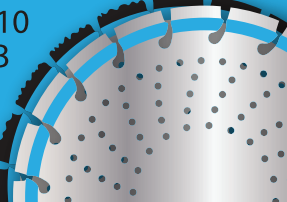

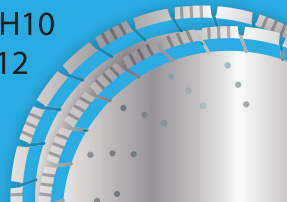

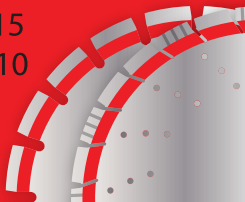

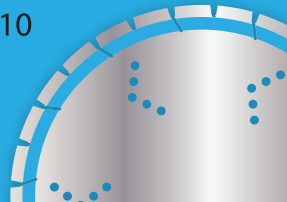

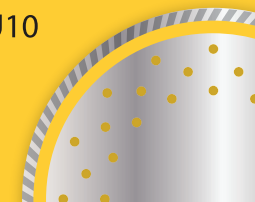

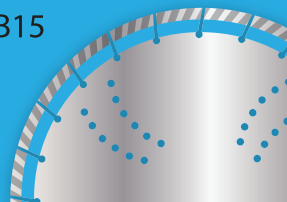

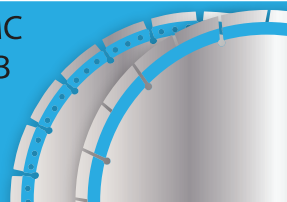

Environmental

Showing that we care: Manufacturing operations accredited to ISO 14001 environmental systems.

Safety is a fundamental part of the OX Diamond range. It is interwoven into the very fibre of innovation, design and production from concept to after sales service.

We have a responsibility. Quality control systems and environmental and safety management ensure that our care covers not only our products and our customers – but that our ethical guidelines address issues such as staff safety and care for the environment.

DIAMOND BLADES

BLADE PACKAGING

The OX diamond blade packaging is designed to inspire customer confidence when making purchase decisions. All important information is easily visible on the front of the package, while the back gives the customer options, ensuring they get the best blade for their job, budget, or machine.

Easy naming convention;

- All Purpose
- General Purpose
- Dual Purpose

Blade size, arbor, and machine it's used on.

Full list of materials that the blade can cut

No wasted space on sides.

Comparison table for viewing the full OX blade offering & comparing what cuts what.

100% sustainable packaging

Tri-lingual safety information

BLADE GRAPHICS

The OX diamond blade graphics are designed to inform users and prioritize their safety.

Application is presented on the graphics; this quickly lets the contractor know what materials they can cut with the blade. An equipment list on the opposite side, gives the contractor their options for the best tool to use for the job.

Important information such as; safety information, warning icons, RPM limit, blade direction, bore sizes and SKU are located on the center of the blade. This ensures the most important information stays intact.

Printing the most important information in the center of the blade ensures the print stays intact throughout the lifetime of the blade.

Equipment suggestions are presented on the graphics; this quickly lets the contractor know what tool to use.

Application is presented on the graphics; this quickly lets the contractor know what materials they can cut with the blade.

Exposed rim for easy visualization of segment type/height.

Additional graphics are eye catching and hint at what can be cut using the blade.

PRO SERIES

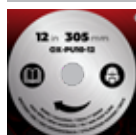

The award winning, best selling PRO Series blades – including the PU10 Universal Blade – the best all round builders blade on the market. These are simply the best value for money blades available in this sector, giving performance you would associate with a professional product at a price that has revolutionized the market.

The PU10 Universal Blade...

CUTS ALL CONSTRUCTION MATERIALS

SUPERFAST TURBO segment technology combines aggressive cutting ability with a fine, clean cut and no burning of the segments. Eliminating the possibility of single segment detachment.

EXTRA SECURE, REINFORCED CENTER PLATE AND UNIQUE COOL-FAST DESIGN for a quieter, cooler and safer blade, with no distortion in the cut.

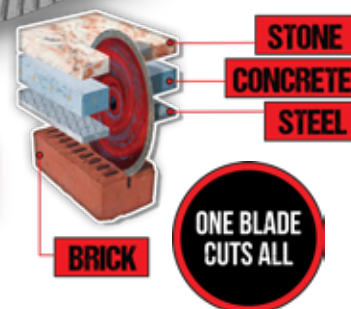

In use, the blade is semi-transparent and cuts out much of the vibration associated with conventional diamond tools.

EN
13236

Safety and vibration tested to meet and surpass relevant standards. Conforms with EN13236.

**CUTS EVERYTHING ON
