Low Minimum Order Value

Fast and trusted service

We are committed to supplying every order on time, in full, and inside a maximum of 72 hours from when we receive your order.

Flexibility and efficiency

You can stock our products with the minimum amount of fuss. This is because we combine low carriage paid order values, with small case quantities.

This enables you to merchandise efficiently and operate with lean stock levels.

Quality you can depend on

We understand that trusted quality is important to every customer and consumer. That is why Temb  operates an accredited ISO 9001:2015 quality system. In addition the products we produce through our leading brands HIPPO® and FILLTITE® always carry key accreditations to guarantee their quality.

Temb  Elephant Park Connection

Whilst travelling South Africa in early 2000, our founder fell in love with Tembe Elephant Park, located in Africa between Zululand and Mozambique. We are proud to share its name, as the Tembe people are ancestral custodians of the area and famous for their friendship and warm hospitality. This fits perfectly with our family friendly ethos, creating long-lasting partnerships with our customers and suppliers.

This monumental trip was also the inspiration behind our Hippo brand, with hippos being renowned for their strength and loyalty to each other.

► Hard Floor Protectors

► Glass Protection

CARPET PROTECTOR

Durable Protection for all Types of Carpet.

A special water based adhesive allows our high performance carpet protector to be used on all types of carpet including those made from wool and natural fibres.

On top of that, this product meets UK Fire Regulations, which means it can remain in place overnight in commercial properties. This is especially useful for hotel and public space refurbishments.

KEY FEATURES

- ▶ For all types of carpet including wool and natural fibres.
- ▶ Reverse wound for easy fitting.
- ▶ Fire retardant.
- ▶ Meets commercial fire regulations.
- ▶ Low slip.
- ▶ Can be laid down for up to 30 days.
- ▶ Instant clean removal with no adhesive residue.
- ▶ Also suitable for textiles.

PRO3 ADHESIVE, SEALANT & FILLER

Replaces Multiple Products to Finish Every Job Imaginable.

With speed, power and versatility our flagship 3 in 1 solution employs the very latest polymer technology. So it's the perfect companion for anyone who is working on anything, anywhere.

PRO3 can be used straight from the tube as an adhesive, sealant or filler with virtually any material. This incredibly versatile product offers stunning grab strength alongside excellent sealant and gap filling properties.

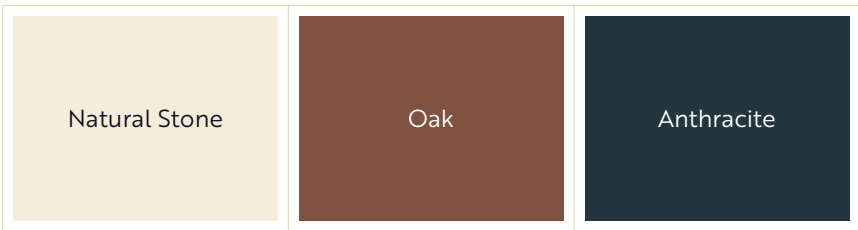

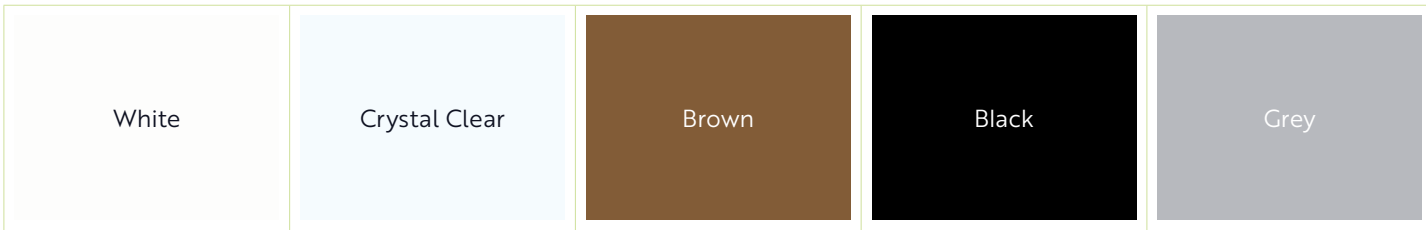

KEY FEATURES

- ▶ Stick virtually anything to anything - replace nails and screws, bond heavy items.
- ▶ Works on wet surfaces and dries underwater.
- ▶ +/- 20% joint movement.
- ▶ Excellent for roofing repairs and general joint sealing.
- ▶ Low pickability - ideal for secure panel fitting.
- ▶ Resistant to extreme weather, temperatures, mould & chemicals.
- ▶ Does not contain solvents, isocyanates or phthalates.

SEALit SANITARY SILICONE

Acetoxy Curing Sealant With a Powerful Anti-Fungal Compound.

This mid modulus, acetoxy curing silicone contains a powerful compound that prevents mould & fungal growth in areas of high humidity.

It is ideal sealing baths, showers, sanitary fittings and ceramic tiles in areas subject to condensation. Sealing around worktops and laminates. Fixing PVCu trims and panels.

KEY FEATURES

- ▶ Prevents mould & fungal growth.
- ▶ Suitable for interior and exterior use.
- ▶ Rapid drying.
- ▶ +/- 20% joint movement.
- ▶ CE certified & tested for use on sanitary projects.

THE HIPPO WEBSITE

SEALit GENERAL PURPOSE SILICONE

Versatile Neutral Curing Low Modulus Sealant.

This low modulus, neutral curing silicone adheres to a wide range of porous and non-porous surfaces.

It's suitable for a wide range of general internal and external jobs. Including perimeter pointing around window frames, sealing soft metals and general draught proofing applications.

KEY FEATURES

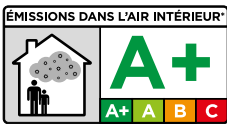

- ▶ Excellent material compatibility.
- ▶ Suitable for interior and exterior use.
- ▶ +/- 25% joint movement.
- ▶ CE certified & tested for use on frame and glazing projects.

THE HIPPO WEBSITE

SEALit HIGH FLEX SILICONE

Alcoxy Neutral Curing Multi-Purpose Sealant

This highly flexible silicone sealant boasts excellent adhesion across almost all building materials and features a neutral alcoxy curing formula for multi purpose use with extra tooling time.

It is extremely suitable for creating expansion joints, sealing of glazing joints, perimeter pointing around window frames, and sealing building connection joints.

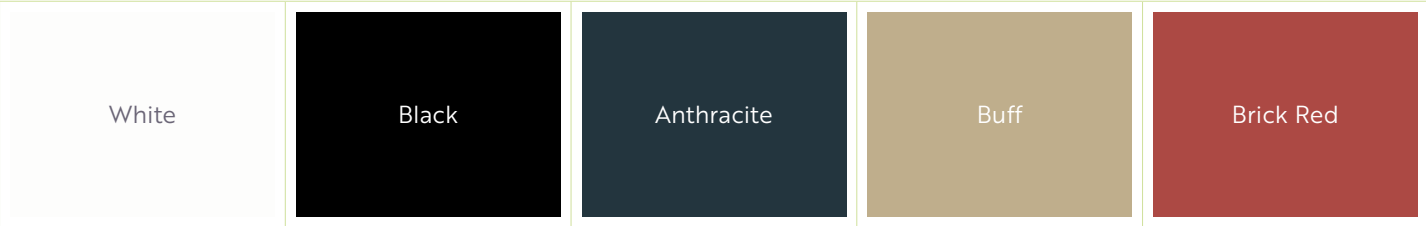

KEY FEATURES

- Suitable for interior and exterior use.
- High ageing resistance to UV and outdoor weathering
- +/- 25% joint movement.
- Very low VOC emissions.

SEALit FLEXIBLE DECORATORS FILLER

Fast Drying Gap Filler & Sealant That is Permanently Flexible.

This acrylic decorators filler is easy to apply quickly and fast drying. It offers moderate levels of long term flexibility which makes it ideal for filling gaps in locations around doors, window frames, skirting boards, walls, ceilings, architraves and plasterboard.

KEY FEATURES

- ▶ Very easy to apply.
- ▶ Fast drying.
- ▶ No sanding required.
- ▶ Can be painted in 1 hour.
- ▶ Can be covered with wallpapers.
- ▶ +/- 12.5% joint movement.
- ▶ Solvent free.
- ▶ CE certified & tested.

SEALit FIRE RATED SEALANT

Intumescent Sealant That Helps Prevent The Spread of Fire

In normal atmospheric conditions this intumescent sealant provides moderate levels of elasticity and excellent sound insulation.

It is especially suitable for filling gaps and openings around fire rated walls and floors. This is because, once exposed to fire, it expands to create a resilient seal which helps delay further spread of smoke.

KEY FEATURES

- ▶ Provides up to 4 hours fire and smoke resistance.
- ▶ Offers very high sound insulation and maintains acoustic design.
- ▶ +/- 12.5% joint movement.
- ▶ Can be painted.
- ▶ CE certified & tested to meet EN 1366-4.

PRO1 POWER BOND ADHESIVE

Ultimate Grab Replacement for Mechanical Fixings.

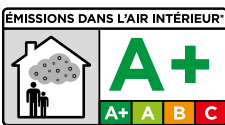

This powerful grab adhesive eliminates the need for temporary supports and delivers levels of immediate grab strength typically double that of most other products.

It is ideal for bonding most building materials in any location including ceiling construction, fixing heavy stone wall cladding elements, fixing high security glass, and secure gap filling.

KEY FEATURES

- Replaces mechanical fixings.
- Stick virtually anything to anything.
- Will not stain materials or corrode metals.
- Very low pick-ability – perfect for high security areas.
- Can be painted.
- Resistant to extreme weather, temperatures, mould & chemicals.
- Does not contain solvents, isocyanates or phthalates.

GRIPit NO NAILS ADHESIVE

General Purpose Alternative To Nail Fixings.

This strong grab adhesive is specially formulated to replace nails and general fixings, across a wide variety of internal applications.

As long as one substrate is non-porous, it can be used to bond things like wood, metals, ceramic tiles, natural stone, brick, concrete, plaster, plasterboard, and polystyrene.

KEY FEATURES

- ▶ Stick virtually anything to anything.
- ▶ Good instant grab strength.
- ▶ Slump resistant.
- ▶ Can be painted.
- ▶ Solvent free.

ULTIMATE PERFORMANCE EXPANDING GLUE

Powerful Moisture Activated Polyurethane Adhesive.

An Incredibly strong and versatile glue that permanently bonds a wide range of materials and keeps them bonded in all conditions.

This product expands to fill gaps, so it's perfect for joining dissimilar surfaces and can be used to bond wood, metal, glass, stone, brick, concrete, ceramics, foam and much more.

KEY FEATURES

- Expands to fill gaps.
- Suitable for interior and exterior use.
- Industrial strength holding power.
- Resistant to extreme temperatures.
- Dries 100% waterproof.
- Can be sanded by hand.

UNIVERSAL WOOD GLUE

Fast Setting D4 Waterproof Adhesive for Any Location.

This fast-setting wood Glue is our best adhesive for joinery projects. With a short open working time and low foaming action, this is a great choice for bonding uneven surfaces and creating waterproof joints on projects located anywhere.

It is especially ideal for window and door frame assembly, insulation bonding, structural panel jointing, and much more.

KEY FEATURES

- ▶ Fast setting in 5 minutes.
- ▶ Suitable for interior and exterior use.
- ▶ Very high bond strength.
- ▶ Fills gaps in uneven joints.
- ▶ D4 100% waterproof – meets EN 204.
- ▶ Can be sanded by hand.
- ▶ Can be painted or stained.

INTERIOR & EXTERIOR WOOD GLUE

High Performance D3 Water Resistant Adhesive.

A water based PVA adhesive with a strong water resistant formula that delivers fast bonds on a variety of wooden surface types, with a 30 minute grip time.

This product is ideal for all general wood working and can be used on hardwood's, softwoods and wood composites to create a bond that is generally stronger than the wood itself.

KEY FEATURES

- ▶ Easy to squeeze bottle with cap.
- ▶ Suitable for interior and exterior use.
- ▶ Excellent bond strength
- ▶ D3 water resistant – meets EN 204.
- ▶ Can be sanded by hand.
- ▶ Can be painted.
- ▶ Solvent free.

INTERIOR WOOD GLUE

High Performance D2 Moisture Resistant Adhesive.

This water based PVA wood glue provides a reliable solution for bonding indoor wood that may be subject to high humidity and creates a bond that is generally stronger than the wood itself

With an open time of approximately 15-20 minutes this is ideal for kitchen cupboard and cabinet building projects. It can be used on hardwood's, softwoods and wood composites.

KEY FEATURES

- ▶ Easy to squeeze bottle with cap.
- ▶ Suitable for interior use.
- ▶ Good bond strength.
- ▶ D2 moisture resistant – meets EN 204.
- ▶ Can be sanded by hand.
- ▶ Can be painted.
- ▶ Solvent free.

RAPID MITRE BOND KIT

Two Part High Speed Cyanoacrylate Adhesive.

This multi purpose adhesive is specifically formulated to rapidly reduce assembly times of wooden mitre joints and maximise bond strength.

The two-part system includes a large bottle of thick super glue and a spray activator. Together they quickly deliver strong bonds on wood and many other building materials.

KEY FEATURES

- ▶ 2-part system.
- ▶ Suitable for interior use.
- ▶ Only needs one or two drops per joint.
- ▶ Rapid bonding – from just 10 seconds.
- ▶ High bond strength.
- ▶ No clamping required.
- ▶ Fill small gaps.

WATERPROOF PVA ADHESIVE

Multi Purpose Bonding Agent, Primer, Sealer and Admixture.

Our highly concentrated waterproof PVA adhesive and sealer provides exterior grade versatility and dependable high bond strength.

Specially formulated for exterior projects, this product can be used with most building materials in any location. It's adheres well to materials like wood, cork, paper, textiles and general porous surfaces.

KEY FEATURES

- ▶ Class leading quality.
- ▶ Dilutes with water up to 5 parts to 1.
- ▶ Suitable for interior and exterior use.
- ▶ Works with 3rd party products.
- ▶ Improves material flexibility.
- ▶ Conforms to EN204 D3 classification for woodworking.
- ▶ Solvent free.

PVA ADHESIVE

Multi Purpose Bonding Agent, Primer, Sealer and Admixture.

This concentrated PVA adheres well to plaster, as well as other common building materials which make it ideal for multi-purpose use priming unsound surfaces or as an adhesive.

It can be used for general dust sealing on old or flaking substrates and as a cement and plaster admixture. Additionally it will bond most materials where at least one surface is porous.

KEY FEATURES

- ▶ Class leading quality.
- ▶ Dilutes with water up to 4 parts to 1.
- ▶ Suitable for interior use.
- ▶ Works with 3rd party products.
- ▶ Improves material flexibility.
- ▶ Complies with the BS5270 standard.
- ▶ Certified plastering compliant.
- ▶ Solvent free.

FILLING SOLUTIONS

- ▶ Powdered Fillers
- ▶ Ready to Use Fillers

- ▶ Wood Fillers

FILL & FINISH CLASSIC INTERIOR FILLER

All Purpose Filler With a Moderate Open Working Time.

A fine white powdered wall filler that contains plaster, calcium carbonate, resins, cellulose fibres and special additives to produce a smooth paste when mixed with water.

It is ideal for general use on interior walls and painted surfaces and compatible with most substrate materials including old and new gypsum plaster.

FILL & FINISH RAPID DRYING INTERIOR FILLER

High Performance Filler With a Short Open Working Time.

This fine white powdered filler produces a smooth rapid setting paste when mixed with water and combines a short open time with fast drying times.

It is ideal for professionals who need to work quickly and can be coated with all types of paint, other special finishing fillers, or covered in wallpaper.

KEY FEATURES

- ▶ Easy to mix with water.
- ▶ Moderate open working time.
- ▶ Adheres to painted surfaces.
- ▶ Easy to sand, with no shrinking or cracks.
- ▶ Can be painted from 12 hours.
- ▶ Will not flash or grin through paint or wallpaper.
- ▶ Packs contain individual 1kg bags for small batch mixing.

FILL & FINISH MULTI PURPOSE INTERIOR FILLER

High Performance Filler, Skimcoat, Joint Compound & Adhesive.

This high performance fine powder provides a versatile solution for sticking, smoothing, levelling and decorating surfaces with exceptional results.

It is ideal for all interior renovation jobs including (but not limited to) filling holes and cracks to any depth, sticking plaster blocks, joining plaster boards, fixing decorative mouldings, and even creating textured surfaces when used with a roller.

FILL & FINISH ROCK HARD EXTERIOR REPAIR FILLER

High Performance Exterior Repair Filler for Extreme Durability.

Our range topping powdered filler delivers exceptional adhesion and durable shrink-free finishes to all types of substrate, located inside or outside.

This fine white filler is ideal for (but not limited to) repairs to pointing, stonework, cement and concrete. Plus shaped repairs to masonry, cornices, windowsills and damaged angles.

KEY FEATURES

- ▶ Easy to mix with water.
- ▶ Long 120 minute open working time.
- ▶ Fill to any depth and skim up to 10mm.
- ▶ Adheres to painted surfaces and will bond plasterboard to blocks.
- ▶ Easy to sand, with no shrinking or cracks.
- ▶ Can be painted in 24 hours.
- ▶ Will not flash or grin through paint or wallpaper.
- ▶ Packs contain individual 1kg bags for small batch mixing.

FILL & FINISH MASONRY REPAIR FILLER

Cement Based Filler That Can Be Applied To Damp Surfaces.

This shrink-free powdered filler offers high levels of adhesion and can be used for a wide range of repairs inside or outside.

It is ideal for filling holes and cracks in outdoor masonry and pointing work. Plus repairs to degraded concrete, cornices, rough-casting, building blocks and window reveals.

KEY FEATURES

- ▶ Easy to mix with water.
- ▶ Adheres to damp masonry.
- ▶ Excellent adhesion qualities to most substrates.
- ▶ Will not shrink or crack.
- ▶ Can be painted when dry.
- ▶ Will accept plaster based or ready to use fillers.

FILL & FINISH RAPID DRYING EXTERIOR FILLER

Ready to Use Lightweight Paste for Quick External Repairs.

Our revolutionary rapid drying exterior filler, is the ultimate ready to use solution for time-sensitive projects and hassle-free repairs on external walls.

Thanks to its special shrink free formulation, it can be trusted to fill to any depth on a wide variety of outdoor materials. These include masonry, brick, stone, cement, rendering, concrete, and painted façades.

KEY FEATURES

- ▶ Easy to use lightweight ready mixed formula.
- ▶ Fill to any depth.
- ▶ Will not shrink or slump.
- ▶ Quick drying – paint in 2 hours.
- ▶ Accepts solvent based paints.

THE FILLTITE WEBSITE

FILL & FINISH ULTRA LIGHT FILLER

High Performance Ready to Use Interior & Exterior Filler.

The microscopic crushed marble beads in this creamy light weight filler help to quickly create super smooth finishes, without the need to sand down before painting.

It is ideal for making speedy repairs of any depth on walls and ceilings, in just one application. Additionally it dries quickly which makes it possible to paint from just 15 minutes.

KEY FEATURES

- ▶ Easy to use lightweight ready mixed formula.
- ▶ Fill to any depth.
- ▶ Will not shrink or slump.
- ▶ Fast drying.
- ▶ Smooth finish with no sanding required.
- ▶ Can be painted from 15 minutes.
- ▶ Will not flash or grin through paint or wallpaper.

FILL & FINISH FINE SURFACE FILLER

High Performance Interior Filler For Enhanced Paint Finishes.

This smooth white emulsion is ideal for preparing interior walls and ceilings for painting. Once completely dry, the high resin content provides a super smooth surface with very low levels of absorbency. Consequently this helps make paint go further and delivers enhanced finishes.

KEY FEATURES

- ▶ Easy to use ready mixed formula.
- ▶ Delivers a super smooth finish with no sanding required.
- ▶ Will not shrink or crack.
- ▶ Can be painted.
- ▶ Helps make paint go further and enhances finishes.
- ▶ Will not flash or grin through paint or wallpaper.

FILL & FINISH DECORATORS CAULK

Fast Drying Gap Filler With Nominal Flexibility.

This fast drying acrylic gap filler provides nominal levels of flexibility and can be quickly painted with most types of paint in about 1 hour, or covered with wallpaper once dry.

It is ideal for quickly filling internal gaps and cracks prior to painting on low-movement joints like window frames and skirting boards.

KEY FEATURES

- ▶ Very easy to apply.
- ▶ Fast drying.
- ▶ No sanding required.
- ▶ Can be painted in 1 hour.
- ▶ Can be covered with wallpapers.
- ▶ +/- 5% joint movement.
- ▶ Solvent free.
- ▶ CE certified & tested.

FILL & FINISH 2-PART WOOD FILLER

High Performance Interior & Exterior Wood Repair Filler

This rapid setting two-part wood filler is specially formulated to provide durable and long lasting repairs for all weather conditions.

As well as being ideal for rapidly filling all kinds of wood in any location, this product is also suitable for restoring rotten wood and use with other materials like metal and stone work.

KEY FEATURES

- ▶ High performance 2-part formula.
- ▶ Suitable for interior and exterior use.
- ▶ Short open working time (approx 30 minutes)
- ▶ Rapid setting formula.
- ▶ Easy to sand.
- ▶ Can be shaped, nailed or screwed.
- ▶ Can be painted or stained.
- ▶ Goes up to 18% further than some other brands.
- ▶ Does not contain Styrene.
