Concrete Posts \& Gravel Boards Palisade Fencing \& Gates
Pro-Mesh Fencing \& Gates

## Introduction

Naylor Fencing (formerly Procter Fencing) is a member of The Naylor Group of Companies.

Naylor has 130 years of manufacturing and supply experience to the Construction, Building and Civil Industries and over 60 years' experience in supplying high quality precast concrete and steel fencing products. Our comprehensive range of concrete fencing products includes slotted posts, posts for timber fencing and gravel boards, whilst our steel fencing systems comprise galvanised palisade fencing and pro-mesh fencing.
Naylor deliver throughout the UK and the sales team are on hand to discuss your requirements.

| HD210 | $2.73 \mathrm{~m} \times 125 \times 100 \mathrm{~mm}$ | 1944 | 24 |

## Galvanised

 palisade fencing
## Perfect for deterring

 intrudersPalisade fencing is the most popular choice for locations requiring a level of security and vandal resistance and can be seen protecting premises of many different types throughout the UK.
Steel Palisade fencing is especially popular for schools and industrial sites because of its high damage resistance and that it is difficult to climb.

Galvanised palisade fencing - 2.75m bays

| Code | Description | kg/per bay |
| :--- | :--- | ---: |
| PAL18W | 1.8 m high 2 mm W section triple point | 88 |
| PAL24W | 2.4 m high 2 mm W section triple point | 113 |

Palisade fencing extras

| Code | Description | kg |
| :--- | :--- | :---: |
| PALPOST18 | $2.32 \mathrm{~m} \times 100 \times 55 \mathrm{~mm}$ | 20 |
| PALPOST24 | $3.15 \mathrm{~m} \times 100 \times 55 \mathrm{~mm}$ | 28 |
| PALPALEW18 | 1.75 m W section pale | 27 |
| PALPALEW24 | 2.35 m W section pale | 29 |
| PALNUT/BOLL8 | m 8 shear nut \& bolt |  |
| PALNUT/BOLT12 m 12 shear nut \& bolt |  |  |
| FISHPLATES | straight fishplate |  |
| FISHPLATEC | corner fishplate |  |

## Palisade Gates

> Perfect for deterring intruders, trespassers and vandals

Palisade gates are especially popular as they are often combined with our palisade fencing and together offer an effective security solution. In fact, steel palisade gates represent by far the biggest number of swing gates we supply. Palisade security gates are available in a range of standard heights and widths.

Single palisade entrance gates 1.8 m high

| Code | Description | kg |
| :--- | :--- | ---: |
| PG1812 | $1.8 \mathrm{~m} \times 1.2 \mathrm{~m}$ Single leaf gate | 103 |

Single palisade entrance gates 2.4 m high

| Code | Description | kg |
| :--- | :--- | ---: |
| PG2412 | $2.4 m \times 1.2 m$ Single leaf gate | 127 |

Double leaf palisade entrance gates 1.8 m high

| Code | Description | kg |
| :--- | :--- | ---: |
| PG1830* | $1.8 \mathrm{~m} \times 3.0 \mathrm{~m}$ Opening Double leaf gate | 360 |
| PG1840 | $1.8 \mathrm{~m} \times 4.0 \mathrm{~m}$ Opening Double leaf gate | 426 |
| PG1850* | $1.8 \mathrm{~m} \times 5.0 \mathrm{~m}$ Opening Double leaf gate | 492 |
| PG1860* | $1.8 \mathrm{~m} \times 6.0 \mathrm{~m}$ Opening Double leaf gate | 558 |

Double leaf palisade entrance gates 2.4 m high

| PG2460* | $2.4 \mathrm{~m} \times 6.0 \mathrm{~m}$ Opening Double leaf gate | 686 |
|  |  | *Made to order |

## Pro-Mesh Difficult to climb \& cut through

Pro-Mesh fence systems comprise pressed panels with reinforced profiled sections to provide rigidity and strength. The number of these profiled sections will vary depending on the height of the mesh panel.
These are typically used for medium security applications, with the nature of the mesh panels making it difficult to climb and cut through. Despite this, a Pro-mesh panel fence has an attractive appearance and the open and strong mesh allows good visibility through it.
Pro-Mesh panels are first galvanised and then polyester powder-coated to RAL 6005 green.

| Panel Dimensions $(\mathrm{mm})$ |  |  |
| :--- | :--- | :--- | :--- |
| Heights | $1730 \quad 1930 \quad 2330$ |  |
| Widths | 3000 |  |
| Mesh | $200 \times 50$ |  |
| Post Dimensions $(\mathrm{mm})$ |  |  |
| Post | $60 \times 60 \times 1.5$ | Wall Thickness |
| Clip | $54 \times 37$ |  |
| Centres | 3010 |  |

Pro-Mesh mesh panel fencing system

| Code | Description |
| :---: | :---: |
| PFM18 | 1.8 m high Pro-Mesh mesh panel fencing system $200 \mathrm{~mm} \times 50 \mathrm{~mm}$ galvanised and powder coated green panel, $60 \times 60 \mathrm{~mm}$ box section post |

| PFMCLIP | Pro-Mesh clip |
| PFMSCREW | M8 Security Screw |

## Pro-Mesh Gates <br> Perimeter protection

Pro-Mesh swing gates are designed and fabricated from SHS steel frame, cladded with 656 twin wire mesh, securely welded to the inside of the frame.

Pro-Mesh gates are supplied with adjustable hinges and a solid steel slide bolt.

Pro-Mesh gates are all hot dipped galvanised and polyester powder coated RAL 6005 green

Single mesh panel entrance gates 1.8 m high

## Handling \& Storage

To minimise damage, guidance on the correct handling and storage of fence posts should be observed. All Naylor Fencing products are packaged securely on timber pallets with a bearer located between rows of fence posts. Products should be handled by trained personnel in accordance with correct manual handling guidelines. Mechanical equipment such as a forklift should be used to move pallets of stacked products but not individual posts. Products must always be stacked on level ground. Appearance of a hairline crack in a fence post or gravel board does not

Do not lift the stack on narrow forks. The forks must be positioned as wide as possible within the width of the pallet.

Products must be stacked evenly with the bearers lining through.

## Rapid Set Fence Post Concrete for posts

A quick, easy and ready to use out of the bag pre-blended Rapid Set Fence Post Concrete suitable for all types of fence and gate posts including wood, metal and concrete.

- No mixing is required, just add water

- Rapid setting product - sets within 5 to 10 minutes.

■ Factory produced - consistent and premium quality

The amount of Rapid Set Fence Post Concrete required will depend on the size of the hole \& post, eg: 1 bag = square post 10 cm (4") with a hole 20 cm (8") wide x 75 cm (30") deep.

Our products are supplied in shower proof polythene bags which are suitable for outdoor storage.
