- Cut to Size Service
- Hygienic Cladding

Ariel Plastics is *the* national plastics distribution company, offering the widest choice of roofing sheet, rooflights and roofing accessories available in the UK.

The UK market leader for over 55 years, our product portfolio has grown extensively and now includes Roofing Sheet options in Polycarbonate, PVC and Bitumen with a complete range of accessories.

Flat Glazing and Dome  
Rooflights, Roof Drainage,  
Roof Ventilation and Cladding

for commercial and residential construction projects.

Ariel's nationwide logistics operation, national sales team and dedicated customer support ensures that merchants throughout the UK receive the highest quality service, product and technical support.

# CUT TO SIZE SERVICE

# Leave the cutting to the experts

See Page 66

Ariel offers a fast, easy Cut to Size Service for Polycarbonate, Acrylic, and Styrene, delivered nationwide within 48 hours.\*

\*Terms & conditions apply

**This price list supersedes all previous issues. All goods sold are subject to our standard Terms and Conditions of Sale (available on request from the Sales Office). Ariel Plastics Ltd reserves the right to amend specifications without prior notice.**

### Carrier Deliveries

Customers requiring a chargeable Next Day carrier service must submit their orders before 12:00 noon. Please note that carriers will not take goods longer than 4m and wider than 1m. Although we expect the carrier to deliver on a next day service, carriers are increasingly unable to guarantee this on all occasions. Basic carrier cost is £30.00, please contact sales office for full details.

### Terms & Conditions

Please provide full delivery address with postcode, contact name and phone numbers and details of any site restrictions which may affect delivery. For details of the delivery schedule and delivery zones, see inside back cover.

### Ordering

When ordering please clearly state Product Code, Description and Quantity. 48 hour Hi-Lights Service orders must be placed by 12.30pm. All other orders must be received by 4pm (Mon-Thur), 3:30pm (Fri).

### Prices

Irrespective of any prices stated on your orders, the prices charged by Ariel Plastics will be list prices less your agreed customer discount. List Prices exclude VAT.

### Non Price List Products

Any goods not stated on the price list will be subject to extended lead times and a minimum order value of £250.00 net. These products are all non-returnable.

### Cut to Size

Cut to size is a bespoke product and therefore non-returnable.

### Cutting Charge

We reserve the right to apply a cutting charge for complicated or large cutting requests. Please contact the customer services department for details.

### Quotations

Quotations will normally be processed within 24 hours. Earlier processing may be available on request. Complicated and structural quotations can take up to 48 hours to be fully processed.

### Cancelled Orders

We reserve the right to charge up to £30.00 for any orders cancelled after the order cut off time to cover administration and/or delivery costs. Cancelled orders must be notified in writing before cut off time. Cut off time is 4.00pm.

### Minimum Order Charges

Orders under £250.00 net will be subject to a £30.00 delivery charge.

### Site Deliveries

Site deliveries are subject to a minimum order value of £250.00 and a one off charge of £30.00 (mainland GB only).

### 48hr Hi-Lights Service

Orders must be received by Ariel Plastics by 12.30pm. 48hr delivery is only available to mainland GB (excluding postcode areas beginning KW, IV, AB and PH). All Mardome returns must be in a re-saleable condition and rooflights will be subject to a 50% restocking charge plus £85 collection charge. All rooflights are subject to a £30 delivery charge. Please note that a £85 failed delivery charge applies to all rooflights.

### Fixing Guides

Available to download from [www.arielplastics.com](http://www.arielplastics.com)

### Collection

Goods may only be collected by prior arrangement.

### Notification of Claims

The seller shall be entitled to reject any claim for DEFECTIVE goods unless such a claim is notified in writing to the Seller within 48 hours of delivery, or, if the alleged defect is not immediately apparent, within such longer period as the seller may reasonably allow in the circumstances. Mardomes are bespoke items and will incur a 50% restocking charge plus £85 collection charge if cancelled or returned. Returns must be in a re-saleable condition.  
*Vents are made to order and therefore non returnable.*

The Seller shall be entitled to reject any claim for SHORTAGES of the goods unless such claim is notified to the Seller in writing within 48 hours of the date of delivery of any consignment in which it is said a shortage has occurred. Upon collection of goods, the Seller shall be entitled to credit goods only which are deemed resaleable.

The Seller will notify the Buyer within 48 hours of any rejections or discrepancies. It is recommended that orders are checked for completeness and defective parts before installation work commences. Failure to do so may affect the claim.

# Corovent

Roof Ventilation

## SLATE, TILE AND RIDGE VENTILATION

An extensive range of **Corovent** Slate, Tile and Ridge ventilation products has been specially designed to eliminate the risk of condensation.

A comprehensive range of tile vents are available to match most roof tiles, with specials available on short lead times. Our tile matching service ensures that Corovent will always blend in discreetly with existing tiles, even on a weathered roof.

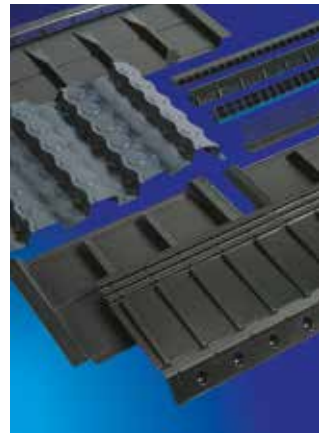

\*Not suitable for roofs less than 20° pitch

## EAVES VENTILATION

The wide range of eaves ventilation products and accessories can eliminate condensation by providing adequate airflow in the roof void, and avoids damage to the eaves and roof-felt finishing.

- Maintenance free
- Corrosion and rot resistant
- Strong and flexible

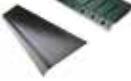

Our tile matching service ensures the Corovent will blend in with existing roof tiles.

# Corovent URS

Universal Ridge System

Corovent Universal Ridge is designed to provide a totally dry fixed and weathertight ridge that is fast and simple to install. Every ridge unit is mechanically fixed eliminating the need for mortar completely.

The Corovent dry fix system is supplied as a complete system with all components to fix 6m of ridge.

- Unique jointing system for versatility
- Accommodates most known ridge tiles
- Can be used with both half round & angled ridges
- Dry fix is the fastest way to install ridge tiles
- No wet trades needed
- Smooth line providing a discreet appearance

## Universal Dry Fix Ridge System (vented)

Code	PG	Disc	Product Description	Outer Qty	Price £
URS6/B	071	780	1 Dry Fix Roll Out 6m x 300mm 13 Dry Ridge Unions, Fixing Caps & Screws 10 Dry Ridge Union Brackets	1	102.21

URS6/USB	071	780	Dry Ridge Unions, Fixing Caps & Screws	13	7.60

Designed for standard ridge tiles at 450mm width.

# Corovent DHS

Dry Hip System

Corovent DHS provides a mechanically fixed, weathertight and attractive finish to the hip line without the use of mortar bedding. The Corovent DHS is fully compatible with Corovent URS Dry Ridge System.

- Quick & easy to install
- No special tools required
- Mortar free
- UV stable
- Water resistant

## Dry Fix Hip System

Code	PG	Disc	Product Description	Outer Qty	Price £

The above items can also be sold separately. A PVC or a GRP Tray can be used.

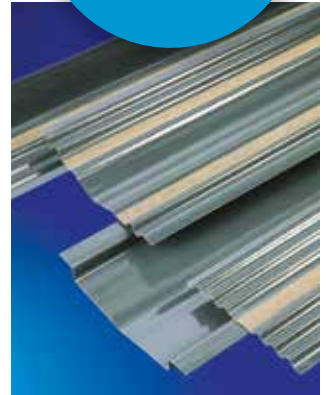

# Corodrain

Roof Drainage

The **Corodrain** range of BBA approved valley troughs is manufactured in GRP as an economic and durable alternative to using lead and all conform to NFRC Technical Bulletin 28.

Corodrain valley troughs can be used on both slate and tiled roofs and with any combination of double or interlocking slates, clay or concrete tiles. Corodrain can also provide a weatherproof seal between roofs of terraced houses or where a new roof needs to join an existing roof.

- A cost effective alternative to lead
- More resistant to damage and theft
- Maintenance free
- UV light and acid rain resistant
- Smooth finish inhibits growth of moss or build up of debris
- Significant reduction in installation time
- ISO 9001 & BBA Approved
- Largest range of lengths available

D-Valleys	A-Valleys	B-Valleys	Unequal Pitches	Dry Valleys
Standard Corodrain valley troughs for use with single and double lap tiles. Both standard (type:HD) and heavy duty (type:DX). They incorporate sanded strips (min. width 35mm) for the mortar to bond to.	Narrow Corodrain valley troughs for use with single and double lap tiles in limited applications. Both standard (type:HA) and heavy duty (type:AX). They incorporate sanded strips (min. width 35mm) for the mortar to bond to.	Standard Corodrain valley troughs for use with double lap slates and tiles, which are dry bedded. Both standard (type:HB) and heavy duty.	B & D-Valleys are designed for use where the differential between two rafter pitches is 15° or less. Industry standards recommend A-Valleys should only be used for pitch differences of 10° or less.	Dry fix valley trough completely eliminates risk of water coming into contact with the batten. No wet trades are required so it can be fitted in any weather.

# Coroverge

Universal Dry Verge System

Watch Video  
Guide

View Installation  
Guide

Coroverge is a mortar free dry verge system which acts as a closure on the roof verge of houses, garages and porches to protect tiles from wind uplift, pest infestation and weather degradation in accordance with BS5534.

- 100% mortar free dry fix verge
- Fully adjustable for batten gauges of 260-350mm
- Hardwearing and durable
- Quick and easy to install
- Selection of popular colours

## COLOURS AVAILABLE

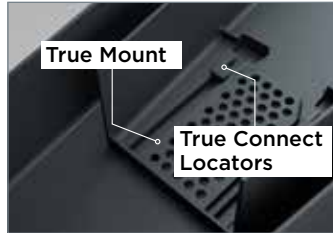

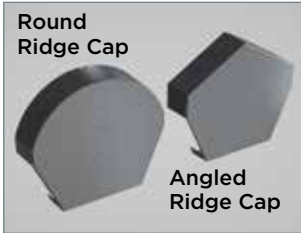

- Anthracite Grey
- Brown
- Terracotta

## APPLICATIONS

- House Roof Verge
- Garage Roof Verge
- Porch Roof Verge

## Universal Dry Verge Components

Manufactured from modern plastic material, Coroverge is very quick and easy to install.

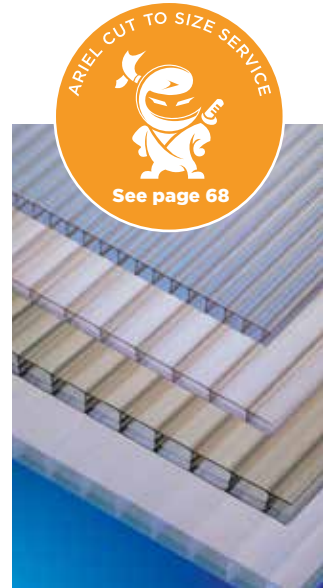

Combining strength and resilience with an attractive finish, the Coroverge Dry Verge System is available in a selection of popular colours.

# Corotherm

Polycarbonate Insulating Roofing Sheet

**Corotherm multiwall polycarbonate sheet** is a lightweight impact resistant glazing and roofing material suitable for use in a range of roofing assemblies with minimum 10° pitch.

- Range of tints, thicknesses & sheet sizes
- Very strong and resistant to impact
- Fire performance information available\*
- Minimum condensation risk
- UV protected for durability
- Largely self-cleaning
- Limited warranty available\*

\* Speak to our Technical Department

## TINTS AVAILABLE

- Clear
- Bronze
- Opal
- Bronze Opal
- Heatguard Opal

## APPLICATIONS

- Conservatories
- Extensions
- Carports
- Porches
- Swimming Pool Covers

Ideal wherever heat insulation, reduced condensation, or simply a more attractive glazing material is required.

Whether you are installing a veranda, canopy or carport **Corotherm multiwall polycarbonate sheet is the ideal choice**. This lightweight impact resistant glazing material is easy to handle, cut and install. For use in projects around the home and garden, Corotherm sheets are available in a range of thicknesses in light transmitting and solar controlling tints.

## KEY INSTALLATION POINTS

Make sure UV protected side of sheet is facing outwards.

Allow minimum of 10° roof slope for water drainage.

The Ariel purlin supported glazing bar and cap should be supported at intervals no greater than 1,500mm. See installer guide for full details.

Rafter glazing bars should be fully supported by rafters.

The lines of the flutes on the sheet must only run from the top to the bottom of the slope. They cannot be run from side to side.

Sheets cannot be joined top to bottom.

Glazing bars/F section cannot be joined - must be used as a continuous section.

When using F section run a suitable low-modulus silicone sealant down the inner top face of the enclosure before inserting sheet.

# Self supporting roofing system

A professionally engineered **Self Supporting Roofing System** which free-spans 4.0m and accommodates 16mm, 25mm and 35mm Corotherm Multiwall Polycarbonate Roofing sheets (pg 20-31).

- Professionally engineered
- Innovative design
- Accommodates 16, 25 & 35mm sheet
- Easy to install
- Low maintenance

## APPLICATIONS

- Carports
- Canopies
- Conservatories
- Replacement Roofing

Designed with flexibility in mind, this lean-to roofing system is suitable for a wide variety of applications. Easy to install and available in a range of sizes - the Self Supporting Roofing System is the tradesman's choice.

# Corotherm Clickfit

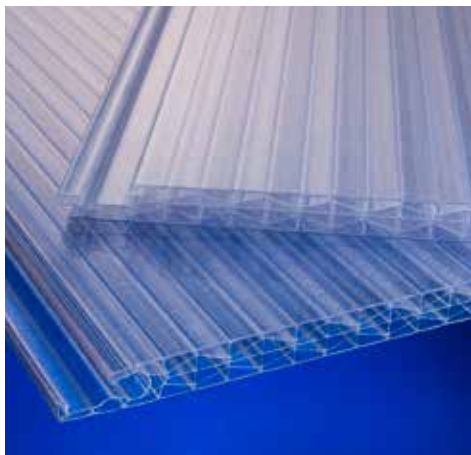

DIY Polycarbonate Roof

Manufactured from damage resistant polycarbonate, **Corotherm Clickfit** is the easy fit DIY roofing system that guarantees long-term performance. Requiring no glazing bars, the easy fit panels simply click and lock together to provide an instant roof.

## APPLICATIONS

- Carports
  - Pool covers
  - Canopies
  - Veranda covers
  - Patio covers
- 
- Easy to handle
  - Light in weight
  - Simple DIY assembly
  - Very strong
  - Impact resistant
  - UV protected

Perfect for DIY use, only standard tools are required to install. Simply cut panels to the required length, screw into place, click and fit the next panel and repeat, then finish with a U profile.

The panels are manufactured from impact resistant polycarbonate which

is hardwearing, durable and long-lasting. This super clear sheet has added UV protection so that you can enjoy the great outdoors whilst being protected from the harmful effects of the sun.

# Corolite

Corrugated Polycarbonate

Engineered to last, mega tough **Corolite** polycarbonate sheets combine strength and impact resistance with glass-like clarity and light transmission. This hardwearing and durable rooflight material is ideal for roofing applications which demand a sheet that punches above its weight for guaranteed long-term performance.

- High light transmission
- High optical clarity
- Impact resistant
- Lightweight
- UV protected
- Excellent fire performance
- Resistant to chemicals
- 10 year limited guarantee\*

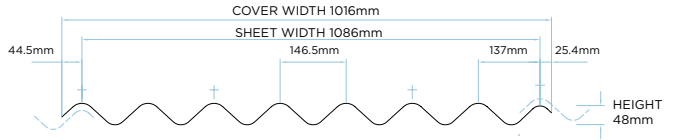

RESISTANT  
TO IMPACT  
**10 YEAR  
GUARANTEE**

## APPLICATIONS

- Patio Canopies
- Awnings
- Greenhouses
- Carports
- Gazebos & Pergolas

# Corolite Diamond

Embossed Corrugated Polycarbonate Sheet

\*When fitted to manufacturers instructions

Corolite Diamond is a super tough corrugated polycarbonate sheet with an attractive diamond embossed pattern. At 2.8mm in thickness the sheets are strong and rigid providing superior spanning capabilities. These sheets provide exceptional light transmission.

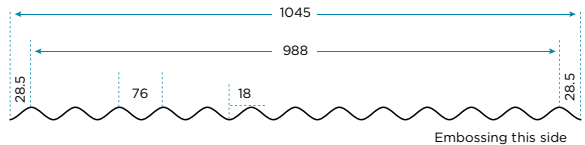

## APPLICATIONS

- Rooflights & Canopies
- Vertical Glazing & Screens
- Decorative Display
- Carports
- Gazebos

- Superior impact resistance
- Exceptional hail resistance
- Hardwearing and resilient
- Light in weight
- High levels of light transmission
- Excellent fire performance
- Co-extruded UV protection
- Distinctive diamond cut surface

# Corolite CST

Corrugated Multiwall Polycarbonate

**Corolite CST** corrugated multiwall polycarbonate sheet provides all the durability and impact resistance of Corolite corrugated polycarbonate sheet with the added insulation and rigidity provided by the multiwall structure. It can be used along with other roofing materials such as fibre cement sheeting or as a complete roof covering or wall cladding material.

- Lightweight
- Reduced risk of condensation
- UV protected
- Excellent fire performance
- Resistant to chemicals
- 10 year limited guarantee\*

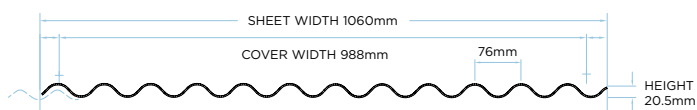

\*When fitted to manufacturers instructions

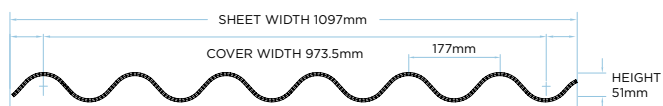

## APPLICATIONS

- Rooflights
- Greenhouses
- Vertical glazing
- Canopies
- Cladding
- Screens

Corrugated PVC

UV RESISTANT  
**10 YEAR\***  
LIMITED  
GUARANTEE

Watch Video  
Guide

View Installation  
Guide

Economic, lightweight and easy to install, **Vistalux** is a versatile corrugated rooflight sheet for car ports, canopies and gazebos. It is easy to cut, drill and install with standard DIY tools and is available in a choice of corrugated profiles in clear or translucent tint options.

- Clear or translucent
- Range of profiles
- Sheet weights: Lightweight 0.8mm, Heavy Duty 1.1mm, Superweight 1.3mm
- UV resistant for durability
- Largely self-cleaning
- 10 year guarantee

## APPLICATIONS

- Carports
- Covered Walkways
- Porches
- Splash Barriers
- Cloches & Cold Frames
- Planthouses
- Side Cladding

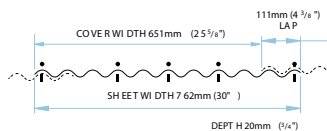

## STORAGE ADVICE

Do not store sheets in direct sunlight as this can cause distortion.

\* Conditions apply.

# DAYLIGHT FOR LIVING

 **Brett  
Martin**

Brett Martin's sophisticated range of glass rooflights is manufactured in the UK and feature high performance glazing units with laminated inner panes, the only safe choice for overhead glazing in accordance with The Rooflight Association guidance.

**NOW AVAILABLE DIRECT FROM BRETT MARTIN**  
T: 024 7660 2022 E: [daylight@brettmartin.com](mailto:daylight@brettmartin.com)

## Roof Lantern

Add visual interest to key living and dining areas with a choice of contemporary 4 panel Lantern or a more traditional 6 panel configuration, complementing any style of property.

Available in sizes up to 3000mm x 2000mm.\*

## Flat Glass

Ideal for modern living the Flat Glass range can be installed in single large square or rectangular formats or as a group of smaller rooflights.

Available in sizes up to 3600mm x 1650mm with options available for openings and ventilation.\*

## Circular Glass

An interesting option to provide central feature daylighting or as a striking way to counteract darker areas.

Available in sizes up to 1500mm diameter.\*

## Glass Link

The options are endless for this continuous modular rooflight system, creating multiple design features for larger projects.

Available in spans of up to 3800mm, with options for opening ventilation.\*

\*Image shown with builders upstand (not supplied).

# Mardome

POLYCARBONATE DOME ROOFLIGHTS RANGE

Designed to bring natural daylight into new build and extension projects, these quality dome rooflights are perfect for low pitched roof projects and will transform open plan living areas, kitchens, bathrooms, hallways and commercial units into modern and bright spaces.

- Thermally efficient single, double, triple glazed options with U values as low as  $0.96 \text{ W/m}^2\text{K}$
- Up to 27% more daylight area than other rooflights
- Impact resistant outer glazing in Marlon FSX Longlife polycarbonate with UV protection
- BBA approved
- 10 year guarantee

Need a rooflight on site quick?  
Try our 48 hour Hi-Lights service.

A selection of the most popular Mardome polycarbonate rooflights are available from stock within 48 hours\* of placing an order for delivery direct to site.

\* Terms & Conditions apply – see page 4.

Bringing style, quality and adaptability, the Mardome rooflights range from Brett Martin offers options to satisfy the requirements of most projects and budgets.

## Mardome Trade

**Mardome Trade** is supplied with a PVC kerb or to fit a builders upstand. A range of ventilation and opening options are also available.

## Mardome Reflex

**Mardome Reflex** is suitable where glazing only is required for fixing to existing kerb or upstand on refurbishment projects.

### Polycarbonate Glazing

- Outer glazing with UV protection
- Impact resistant
- Dome shape as standard with optional pyramid
- Clear, textured or opal tint

### Security Fixings

Mardome Trade rooflights have secure fixings with tamper-proof caps for added security.

Material	U-value*
Double Skin Polycarbonate	2.7 W/m <sup>2</sup> K
Triple Skin Polycarbonate	1.8 W/m <sup>2</sup> K

\*Centre pane U-value is a measure of the thermal efficiency of the glazing type.

### Thermal Efficiency

To meet building regulations, Ariel recommends installing triple skin rooflights.

Further information on thermal performance can be found in the technical data sheets.

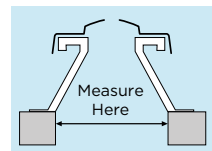

Mardome Trade

Mardome Reflex

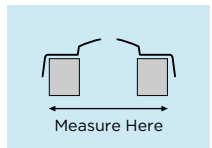

### Guidance on Measuring

#### Mardome with kerb

Measure (length x width) of opening

#### For builders upstand

Measure (length x width) of external dimensions of upstand

# Acrylic Sheet

With a superior gloss finish and scratch resistance, Acrylic is a preferred material for projects which require its high end appeal and durability. It can also be flame polished for a clear, shiny edge finish which replicates glass. Excellent weatherability means Acrylic is an excellent glazing material whilst ease of workability makes it suitable for fabrication.

## At a glance:

- High gloss surface
- Optically clear sheet
- Half the weight of glass
- Scratch resistant
- Weatherable

## Use for:

- POS Displays
- Poster Covers
- Picture Framing
- Splashbacks
- Glazing

# Flat Polycarbonate

Polycarbonate is the perfect substitute for glass. It is lightweight yet at 200 times stronger than glass it is an exceptionally strong, impact resistant glazing material. With a double-sided UV protection to both sides of the sheet it is the ideal material for exterior glazing. The protective UV layer provides a longer sheet life expectancy, prevents yellowing and guards against loss of strength.

#### At a glance:

- Impact resistant
- Lightweight
- UV resistant
- Class 1 fire rating

#### Use for:

- Canopies
- Patio Covers
- Walkways
- Greenhouses
- Glazing

# Hygienic Cladding

**Coroclad Satin**  
Solid PVC Hygienic Cladding Sheet

**Coroclad Gloss**  
Foam PVC Hygienic Cladding Sheet

**Ariel's hygienic cladding** sheets offer an attractive finish to walls and ceilings. The range includes solid PVC sheets in a satin finish and a gloss foam PVC sheet. Both options offer resistance to moisture and chemicals and prohibit microbial materials from being absorbed into the sheets, making them a popular choice for hygienic cladding projects.

#### Use for:

- Health settings
- Food preparation areas
- Commercial kitchens
- Clean rooms
- Bathrooms
- Changing room facilities
- Agricultural sheds

For full details of the characteristics of both hygienic cladding sheets, please refer to the Cladding brochure.

## Coroclad Satin

Solid PVC Hygienic Cladding Sheet

- Solid PVC in satin white finish
- Non-porous surface prohibits microbial material from absorbing into sheets
- Resistant to moisture and chemicals
- Very tough and durable
- Easy clean, smooth surface

### Solid PVC Hygienic Cladding Sheet

Code	PG	Disc	Product Description	Thickness mm	Sheet Size mm	Price £
69000	066	933	Coroclad Satin Solid PVC Hygienic Sheet	1.5	2440 x 1220	124.61
69004	066	933	Coroclad Satin Solid PVC Hygienic Sheet	2.0	2440 x 1220	160.73
69008	066	933	Coroclad Satin Solid PVC Hygienic Sheet	2.5	2440 x 1220	180.79
69012	066	933	Coroclad Satin Solid PVC Hygienic Sheet	2.5	3050 x 1220	195.03
69014	066	933	Coroclad Satin Solid PVC Hygienic Sheet	3.0	2440 x 1220	216.90

## Coroclad Gloss

Foam PVC Hygienic Cladding Sheet

- Foam PVC with co-extruded white gloss finish
- Non-porous surface means microbial material cannot absorb into sheets
- Resistant to moisture and chemicals
- Wipe clean surface

### Foam PVC Hygienic Cladding Sheet

Code	PG	Disc	Product Description	Thickness mm	Sheet Size mm	Price £
68008	066	933	Coroclad Gloss Foam PVC Hygienic Sheet	3.0	2440 x 1220	162.13

A complete range of white PVC profile accessories are available in two lengths (2.44m and 3m). See overleaf.

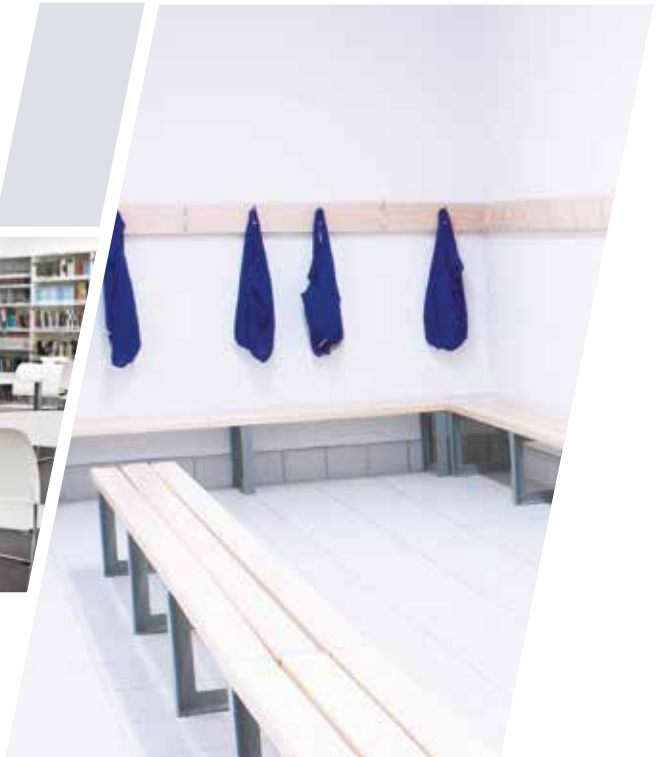

# Economy Clad

Foam PVC General Cladding Sheet

For projects of a lesser specification and where contact from trolleys or loading equipment is unlikely, a general foam PVC cladding sheet is available.

## Use for:

- Store rooms
- Offices
- Short term outdoor use

For full details of the characteristics of both hygienic cladding sheets, please refer to the Cladding brochure.

All reasonable care has been taken in the compilation of the information contained within this price list. Ariel Plastics reserves the right to amend specifications and prices without prior notice.

All recommendations on the use of our products are made without guarantee as conditions of use are beyond the control of Ariel Plastics. It is the customer's responsibility to ensure that the product is fit for its intended purpose and that the actual conditions of use are suitable.

#### **Fire Performance**

Ariel products can be used in a wide variety of applications and although many of the materials used are widely considered to have good fire performance, they are not all currently formally fire tested/certified. This means that there are some applications where they may not be suitable, for example in some buildings taller than 18m. Those who select, specify or install products should always be aware of the relevant building regulations to ensure that products are installed in the correct applications. For detail on the fire performance of specific products please contact the technical department.
