

BIKRIL MATT

**Waterproof
exterior masonry**

Product info

Bikril is an exterior quality emulsion paint based on water-dispersed acryl-vinyl resins.

Waterproof, alkali resistant with water vapour permeable and UV radiation resistant properties.

Bikril has anticarbonation properties, and contains anti-mould agent for total protection.

Provides a tough, flexible coating that helps prevent paint film from cracking, peeling or flaking.

Bikril provides excellent opacity, and a long lasting finish.

Properties

- Excellent adhesion
- Smooth nice to the touch finish
- No tacking
- Antimould protection
- High opacity and coverage properties
- Easy-application properties
- Breathable
- Anti-carbonation protection
- Excellent weather resistance
- Excellent washability
