

ROBUST

Our combination lock 158 with a double shackle locking mechanism has an individually adjustable numerical code.

For safeguarding valuables at a moderate risk of theft, our combination lock 158 presents an excellent solution. Its lock body is constructed with a robust zinc die-cast body, and the shackle is crafted from hardened steel. The lock is available in three-digit, four-digit, and five-digit code variants, providing flexibility in security options. With a double lock mechanism, the shackle ensures added protection. To complement this padlock, we recommend using hasps 100, 110, and 300.

Technologies

- Solid zinc-die cast body
- Shackle made from hardened steel
- Double bolted shackle
- 158/40: individually resettable 3-digit code
- 158/50: individually resettable 4-digit code
- 158/65: individually resettable 5-digit code
- CS: Shackle guard protects shackle from attack
